INTRODUCTORY.

SUFFIELD was settled chiefly by the sons, and daughters of the first emigrants to New England.

Many of the first settled towns contributed to the number, especially Springfield, and Windsor.

To search and collate from these widely scattered sources, whatever might lift the veil, and remove the accumulated mosses of two centuries, has been a laborious, but pleasant task.

Another might have performed the work more perfectly, but none with more love for it, or desire that these treasures be perpetuated.

These Documentary Collections, and Acts of the Committee for planting the town, are the foundations, upon which the superstructure was built, and compose a first, distinct period in its history.

The second period will embrace the years 1682-1715 inclusive. After the latter date, the proprietors of the undivided common lands, kept their acts, and records separate from those of the town. These proprietors' books are in two volumes, and well preserved.

The third period; will embrace the years 1716-1749 inclusive, at which latter date, Suffield transferred its allegiance from the Massachusetts, to the Connecticut Colony.

It is not in accordance with the plan I had proposed to myself, that any portion of these pages should be given to the public, until the Volume was complete. Circumstances have changed this intent, and these memorials, of the initial period of our town's history, are committed to the keeping of those who now possess this grand heritage, and their successors whose feet shall press, and whose eyes shall look upon, these hills, and vales, in the limitless future.

WEST SUFFIELD, CONN., June 23, 1876.

To the Selectmen of the Town of Suffield :

SIRS :—Having had occasion to search the early Town Records, while preparing a short sketch of the History of the Second Ecclesiastical Society, I have become impressed with their value ; also the great danger that they may be blotted out of existence in a single hour, by fire.

This is to ask permission to make a copy (for publication at my own cost) of such parts of those Records as the writer may deem most desirable to be preserved.

Respectfully yours,

H. S. SHELDON.

H. S. Sheldon, Esq. :

DEAR SIR :—Yours of the 23d inst. is received. We cheerfully accord to you permission to make such copies from the Town Records as you desire, and to publish the same as you may deem proper. We have long been aware of the danger to which our Town Records are hourly exposed ; and we are sure that the Town must be under a lasting debt of gratitude to you, for your generous efforts in placing an important portion of its priceless record beyond the contingency of irrecoverable loss.

Very truly yours,

MARTIN J. SHELDON, }

SUFFIELD, June 23, 1876.

PREFACE.

Believing that no History of Suffield can be so complete or valuable to the descendants of its founders, as the records themselves, accurately transcribed, the writer has modified a first plan, and will commence this work by making a copy of the petitions, grants, and orders to and from the Massachusetts General Court ; also the acts of the Committee appointed by it to settle the town.

This plan, with explanatory notes, involves much labor and research, as well as expense.

Many matters pertaining to the Town's History previous to A. D. 1749, can only be found in the Massachusetts Colonial Records at Boston, the Probate Records at Northampton, and the Land and Town Records at Springfield. After that date, the Connecticut Colonial Records, the Hartford Probate Records to 1821, and the Suffield Records, contain similar important matter.

The original first volume of *Suffield Town Acts* is much worn, and the first sixteen pages, containing the acts of the Committee to April 1, 1677, are lost.

Fortunately the Town, in 1771, ordered a copy to be made of that part of the old volume which related to the "Tenure of Lands."

This copy is now Vol. 1 Suffield Land Records, and includes the entire acts of the Committee to 1682, and all grants and allotments of Land to 1724 ; but omits the records of the Town Meetings, which contain the only existing account of the trials and struggles of our ancestors for more than fifty years. These have been transcribed ; and the ancient orthography will be preserved from and after the date April 1, 1677.

The old volume is before me ! From pure reverence the writer has, in its 206th anniversary year, procured for it a new

binding, to save, if possible, what remains. No care can much longer shield it from Time's ravages—the preserving power of types and press alone can save the treasures it contains. Its dingy pages, fading ink, and crumbling leaves, make the transcription a labor.

This work is a “labor of love” on the part of the writer and transcriber. If others shall derive the same pleasure in studying the Town's early history, or a new interest shall be awakened in perpetuating the annals and memorials of our noble ancestors, he will be amply rewarded.

HEZEKIAH S. SHELDON.

SUFFIELD, December 25, 1876.

OUTLINE SKETCHES OF THE HISTORY OF SUFFIELD.

HARTFORD and Saybrook were settled by the English in 1635; Wethersfield in 1634; Middletown, in 1650; Haddam, in 1662; and Lyme, in 1667. These towns were all that were settled in the Connecticut Valley, below Windsor, prior to 1670.

Windsor* had at this date six or seven hundred inhabitants, and a territory on both sides of the river, forty-six miles in circumference, and nineteen Indians to one Englishman.† Within the town of Windsor only, there were ten distinct tribes or sovereignties. Their bowmen were reckoned at two thousand. It was the general opinion that there were nineteen Indians in that town to one Englishman.

SIMSBURY.

Simsbury, ‡ on the south-west, was incorporated in 1670. It contained thirteen Freemen, and other male inhabitants (not Freemen), in all perhaps thirty. The Indians (Massacoes) numbered several hundred. Until the war of 1676 they vastly exceeded the white population; at which time the town was burned, provisions, produce, furniture, fences and farming utensils were collected into heaps, and burned. The town remained deserted for a year, and no attempt was made to rebuild it.

Simsbury then embraced nearly the whole of the present towns of Simsbury, Granby, East Granby and Canton.

It was settled from Windsor, and was the twenty-first town incorporated within the Connecticut and New Haven Colonies, which became one in 1665.

SPRINGFIELD.

Springfield, the parent town of Suffield, was settled in 1636, by families from Roxbury, and was called "Aguam" or "Agawam" until

‡ Phelps' History of Simsbury.

1640; when the inhabitants in "Town meeting assembled," gave it the name of "Springfield;"* complimentary to Mr. William Pynchon, who came from a town of that name in England.

Its boundaries were indefinite, but it embraced portions of Westfield and Southwick, the whole of the present territory of Springfield, West Springfield, Agawam, Chicopee, Wilbraham, Ludlow, Longmeadow, Enfield, Somers and Suffield.

In 1673,† it was a small village "containing possibly 400 inhabitants, men, women and children, and 71 qualified voters;" 1,500 would doubtless be an extravagant estimate of the white population in the Valley in Massachusetts at that time.

WESTFIELD.

Westfield (Woronoco), as early as 1643, was a trading post, and a trading house had been built there by permission of the Connecticut Court, which at that time claimed jurisdiction over the place.

It had a few permanent settlers in 1650, and was incorporated in 1669.

A pathway from Windsor to Northampton via. Westfield, for men, horses and ox-carts, across Suffield, was in use at an early period,‡ and kept in repair by people of those towns.

It was settled by people from Springfield, Northampton and Connecticut.

NORTHAMPTON.

Northampton (Nonotuck) was settled in 1654, principally from Springfield and Windsor. It embraced the territory now included in North, South, East and West Hampton, and part of Hatfield and Montgomery.

HADLEY.

Hadley was settled in 1659 by a company from Hartford, Wethersfield and Windsor, in Connecticut, and incorporated a town in 1661.

HATFIELD.

Hatfield was incorporated in 1670; Deerfield was settled the same year, and incorporated 1673.

These were the only settlements in the valley, in Hampshire County; Suffield being the sixth town incorporated in Western Massachusetts.

Hampshire County was formed in 1662, and was composed of three towns, Springfield, Northampton and Hadley.

Enfield had no permanent settlers until about 1679, and was incorporated in 1683. It was also a part of Springfield, then called Freshwater; afterward Endfield—now Enfield.

STONY RIVER, SOUTHFIELD, SUFFIELD.

In the year 1660, the Massachusetts General Court granted to several persons a sufficient quantity of land to make a plantation, at a place called Stony River, on both sides of the way to Connecticut, seven miles square. It is probable that an attempt was made at settlement at that place, and soon abandoned, and the grant became void. None of these petitioners ever afterward became settlers of the town.

January 14, 1669, the selectmen of Springfield recommended to the town to make several grants of land "att towards: or about, Stony Ryuer; and that if it were ordored, and managed aright; it might make a fine village, or small Plantation."

This was followed by a petition to the General Court in May, 1670, for a Grant for a new town. The petition was granted by the magistrates, but denied by the deputies.

On October 12, the same year, both branches of the General Court confirmed the Grant. This Grant was six miles square on the west side of the "Connecticott," toward Windsor. In 1671 the committee extended the town one and a half miles further west. Complete copies of all petitions, grants, orders and deeds, pertaining to the settlement of Suffield, are in the succeeding pages.

TOPOGRAPHY.

In 1670, the territory now embraced in Suffield was a wilderness, heavily timbered, principally with chestnut, pine and oak. It was estimated that it had but five hundred acres of meadow, or interval land, which was deemed the most valuable by the early settlers, the lack of which was a principal reason why the towns, above and below, were first settled.

Between the river and the mountain are several hilly ridges, with intermediate valleys, and streams of water running northerly and southerly across the town, emptying into Stony River. Upon these ridges were the trails, or paths leading to and from the towns above and below, and where the highways were afterward laid, and still remain. Upon one of these ridges was the "Northampton Road," sometimes called "Hampton Road," and sometimes the "Country Road."* This was the first road in use in Suffield; used certainly as early as 1643, and made a "County Road" by Hampshire County

* County Road.

Court in 1664. (This is now Christian or South street; Remington street and Hasting's, or Zion's Hill Road.)

At this time the "Northampton Road" ran along the easterly side of Zion's Hill (then called "Long Hill"). The first permanent settlers located on this road, and the first (so-called) division of lands was here.

Upon the next ridge east, "High street" was laid. High street extended only from the "Horse way" (now the "Old Factory Road") on the south, to the "Springfield Road"* (now Crooked Lane) on the north. This was called the second division or place, with a double tier of lots.

Upon the ridge nearest the river was the third place with a single tier of lots. This was called "Fether street" (now Feather street). Tradition says it derived its name from the number of feather peddlers who lived there. This cannot be true, as it had the name before it was inhabited by the whites, viz., 1671. It was probably first called Ferther street, then Fether street, from its remoteness from High street.

"Stony River," deriving its name from its rocky bed, (now Stony Brook,) has its rise within the town. Fed by the innumerable springs and streams that issue from the mountain on the west, Agawam Plains on the north, and Windsor Plains on the south, it furnished many mill sites. The undrained swamps were natural reservoirs, making the water supply continuous. Now Stony Brook is of little value for its *mill sites*; but, with its numerous branches, it furnishes admirable drainage and water supply to nearly all parts of the town east of the mountain.

Upon some small open fields, or plains, were a few Indian families, as relics often found there indicate.† They were numerous about the Fall sabove Stony River (Lacowsick); and below (at Squotuck), attracted thither by the admirable fishing grounds.

The "Great Swamp" lay at the eastern base of the mountain, a half mile or more in width, extending from Springfield to Simsbury lines. Along the eastern border of this swamp was the "Hampton Path," leading from Poquonnoc to Westfield, through what is now West Suffield Center, and "Rattly Road," then called "the road across Rattlesnake Plain."

The mountain was densely wooded, and then, as now, a prominent and attractive feature in the landscape of the town. It was supposed to contain valuable mines of copper and of iron. On this account it

was held as "sequestered common" until 1742, when it was divided into 114 proprietors' lots, of four to six acres each, and drawn for by lot.

West of the mountain lay an unexplored wilderness. Seventeen years later, (1687,) the town appointed a committee to make explorations west of it. The last partition of common lands to proprietors—included this part of the town, and was made in 1759.

INDIAN TITLE.

Many of the towns in the valley have recorded deeds from Indian chiefs, of lands embraced within them—procured by purchase either before or after settlement.

No deed* of Suffield as a township, from any Indian chief, has been found.

Its lands were included as a part of Woronoco (Westfield) in 1647, when the General Court ordered "that Woronoco upon the Connecticut River (west side) should be part of Springfield."

The Pynchon deed informs us that the Indian Title to our lands was obtained in separate parts, and from different chiefs.

The northerly part was purchased of Pampunkshat, and was included in his deed of "Waronoco" to John Pynchon. This strip of land extending southerly from Springfield line, (now Agawam,) bounded east on the river down to "Lacows," or "Lacowsick," about the Falls—thence out westward the same breadth to Westfield bound" (then the top of the mountain).

The southerly part was bought by Major Pynchon of "Misnouasques," alias "Margery."

This purchase included the land about the Falls, called "Lacows," or Lacowsick—also "along the Great River, a great way below Stony Brook, toward Windsor," the land being called "Squotuck," "Mayyawag," "Wecups," etc. From the "Great River" this tract extended westerly many miles—taking in the ledge of mountains, and "Ashawalas" and "Wenekeiamaug," and all the swamps thereabouts down toward "Masacoe." This embraced what is now a part of East Granby, Granby and Windsor; and a large part of Suffield.

The sum paid for the whole, by the proprietors, to Major Pynchon, was forty pounds. He purchased the whole from the Indians for the sum of thirty pounds.

* Bliss's Address says there was one.

COLONIAL AND TOWN LINES.

Springfield (called Agawam until 1640) was settled in 1636, by William Pynchon and others, who at that time, it seems, supposed themselves within the Connecticut Patent, and sent deputies to that General Court. In 1638, they became satisfied they were in Massachusetts, and appointed Mr. Pynchon magistrate; and applied to the General Court for protection, and rejected Connecticut jurisdiction thereafter.

The boundary line between the colonies was unknown, and it was a fruitful source of discord between them for many years, involving the border towns in the same quarrel.

The south line of Massachusetts * “runs west from a point three miles south of the most southerly branch of Charles River, and every part of it.” This point was fixed by Nathaniel Woodward, by order of court in 1638—and in 1642, two surveyors, Woodward and Saffery, were ordered to run the line between the colonies. They fixed the line upon the east shore of the Connecticut River at Windsor, near Warehouse Point, about twenty rods below *where the Warehouse* was afterward built.

This line was accepted by Massachusetts and assented to by Connecticut. Windsor, east of the river, was bounded north upon it, and west of the Great River, it bounded north on “Kettle Brook.”†

After the settlement at Suffield was begun, dissensions arose between its inhabitants and those of Windsor. Windsor claimed Stony River for its north line. Suffield claimed to the old line of Woodward and Saffery, which is about a half a mile below the foot of the Falls. In 1671, Massachusetts caused this line of 1642 to be continued west of the Connecticut River seven and a half miles.

Connecticut remonstrated, and in 1672 Massachusetts proposed as a compromise to state and settle the bounds, “forty rods below the foot of the Great Island against the Falls.” The concession was not accepted; and in 1674 the act establishing the town of Suffield stated the south boundary, “about a half a mile below the Island, near the foot of the Falls.”

Connecticut was dissatisfied, and in 1680 proposed to Massachusetts, that commissioners be appointed to run the line “with due care and good instruments, so that a final issue of the controversy may be had.” Massachusetts not accepting the proposal, Connecticut, in 1694, appointed a committee to run the line, and became satisfied that the

true line between the colonies was several miles north of that made by Woodward and Saffery. The great sufferers in this uncertain condition of the boundaries were the inhabitants of the border towns, who often came to blows, within the disputed territory.

In the year 1700 further attempts were made to procure an amicable settlement of the dispute.*

The line was run by the commissioners of both colonies in 1702, and found to fall north of the former line, but Massachusetts disagreed to the report. In 1708, Connecticut appointed commissioners with full power to run the line and establish the boundaries; and "Resolved,† that unless Massachusetts would unite to complete the business, they would apply to the Crown." After several years spent in negotiation, an agreement was concluded in 1713.

July 13 of that year, commissioners of the Massachusetts and Connecticut colonies, agreed upon the terms for a settlement of the boundary line between them.‡

The colony line was found to be north of the towns of Suffield, Enfield and Woodstock. These towns were settled under grants from Massachusetts, and it was agreed that they should remain under that jurisdiction; Connecticut receiving an equivalent of 105,793 acres of land in the western part of Massachusetts. These lands were sold by auction in 1716 at Hartford, and bid off by William Pitkin for other parties, for the sum of £683, New England currency, or \$2,274. Five hundred pounds of the money was given to Yale College.

In 1713§ the line between Suffield and Enfield, and Windsor and Simsbury was adjusted. Windsor lost 7,259 acres. It had claimed as far north as the mouth of Stony Brook, on both sides of the Great River. This settled, for a time, a controversy which had long existed, and caused much bitterness of feeling between these towns, and was one of the main reasons why the towns of Suffield and Enfield consented to remain within Massachusetts jurisdiction, so long after it was known that they belonged to Connecticut.

In 1747,|| "Suffield, Endfield, Woodstock and Sommers," petitioned to the Connecticut Assembly for admission to the liberties and privileges of that colony. In May, 1749, the petition was granted, and Connecticut extended its jurisdiction over these towns, in these words:¶

"Whereupon this Assembly, having considered the said memorial, are of opinion, that, as it doth not appear that ever the said agreement

hath, so it never ought to receive the royal confirmation, and that as the governments could not give up, exchange, or alter their jurisdictions; so the said agreement, so far as it respects jurisdiction, is void.

"And thereupon this Assembly do declare, that all the said Inhabitants which live south of the line fixed by the Massachusetts Charter, are within and have the right to the privileges of this government—the aforesaid agreement notwithstanding."

Massachusetts suffered no wrong or injustice in this matter, as she retained both the territory, and jurisdiction of the equivalent lands.

For twenty years after, Massachusetts continued to assess these towns, but the taxes were not levied.

Connecticut could not prevail upon Massachusetts to unite with them in establishing a boundary line, made necessary by the revolt of these towns. Both colonies referred the dispute to the Crown; and Connecticut was successful in maintaining its claims and jurisdiction.

The claim of Massachusetts to these towns and a part of Southwick, (west of the mountain and now a part of Suffield,) was formally renounced in 1803; Connecticut at the same time renouncing her claim to a part of Southwick, (which included a part of the ponds,) but gaining her claim to that part of West Springfield which had been in dispute.

The line west of the Connecticut River, which had remained unsettled more than one hundred and fifty years, was established in 1803. East of the river it was established in 1826.

TOWN LINES.

The north line of Suffield in 1671, from the Connecticut River west to Westfield bounds, (at Rising Notch,) afterward became the State line, and so remains.

The distance from the Great River to the south-west corner bound of Springfield, (now Agawam,) and the north-west corner of Suffield, at Rising Notch, was stated to be four miles and a half when first run in 1674. The actual distance, by the line of 1803, is five and a quarter miles and sixteen links.

The east boundary of the town was the "Great River," and extended "South from Springfield line six miles upon the square," which is to-day about its width.

The south line, supposed to have been the colonial line, was long in dispute as before related. The Town Records indicate that fierce contentions arose between the inhabitants of this and the towns of Windsor and Simsbury; which terminated in 1713, when the colonial lines were adjusted. By this adjustment Simsbury retained the disputed territory; and Suffield was dismembered of its south-western corner, embracing an area of not less than 5,000 acres. As an equi-

alent for the losses sustained, the Massachusetts General Court, in 1732, granted to Suffield Proprietors a tract of land six miles square. This tract * is now covered by the town of Blandford. It was sold to Christopher J. Lawton.

The west line† from Springfield's south-west corner bound, (at Rising Notch,) ran southerly along the top of the mountain, about two miles to a White Oak Tree,‡ which was the south-east corner bound of Westfield. From this bound the line between the towns of Westfield and Suffield extended westerly several miles, and so far southerly as to leave all the ponds within the town of Westfield (now in Southwick). The land between Westfield and Simsbury lines belonged to Suffield, but was in dispute. In the settlement of 1713, Simsbury retained a large portion of it.

By the adjustment of the State line in 1803, Suffield acquired a tract of land about two miles square, lying on its north-west border between the top of the mountain and the "Ponds."

The State line§ was extended westerly from Springfield bound (at "Rising Notch") two miles and twenty-nine rods, crossing "Concongomonk Plain" to a stone monument at the middle pond, twenty-two links east of low water mark; thence on the east shore of said pond, as the same runs southerly, etc.

There seems to be no good reason why this line should not have been continued west without a break, which would have left the south part of Southwick|| and a large portion of the Ponds in Connecticut, where they properly belong. The wishes of the inhabitants seem to have governed the commissioners in establishing the line; those living east of the Ponds desired to belong to Suffield, while those west chose to remain in Southwick and under Massachusetts jurisdiction.

The "Ponds," now quite famous as a resort for picnic and pleasure parties, were then esteemed of little value. About 1750 an attempt was made to drain them for purposes of cultivation, by a company of English agriculturists, but proved impracticable. Their outlet was originally through the Agawam River, but was diverted southerly by the Farmington Canal Company, and so remained for many years after the canal was abandoned. Since that time large manufacturing interests have grown up in the valley of the Agawam River, and the Ponds are valuable as a reservoir for water supply. Hence the courts were resorted to for a settlement of the disputes which had arisen

between citizens of the two States, resulting in the restoration of the original outlet.

The "Ponds"* are the summit level of the old Farmington canal between Westfield and New Haven, being 76 feet above Westfield, 36 feet above Farmington, 218 feet above tide water at New Haven, and 182 feet above the Connecticut River at Enfield Falls.

THE TOWN ABANDONED.

The breaking out of "King Philip's War" in 1675, suspended all grants of lands, and the plantation was abandoned to solitude and the Indian.

There is no record of the particulars of the flight of the inhabitants, but it may be supposed, as in other towns that were abandoned, it was in great haste and fear, the people burying their valuables in the earth, and secreting them in wells and swamps.†

At this time there were ten towns in Hampshire County, which included all of Western Massachusetts then inhabited by the whites. The County embraced a tract of land about thirty-six miles in width, on each side of the Connecticut river, and about fifty miles in length northerly from the Connecticut Colonial line.

Five of these ten towns were abandoned and burned, viz.:

Brookfield, Northfield, Deerfield, Suffield and Swampfield or Sunderland.

Judd's History of Hadley‡ says there were 225 persons slain, 110 dwellings, and a less number of barns, were burnt within the County, and some of these were in Suffield.

Springfield was burned October 5, 1675. Major Pynchon's letter to his son Joseph§ (then in London) describing that event says: "All my mills, both corn and saw-mills, are burnt down; those at home, in this town, and also those I had in other places, and four of those houses, and barns to them, which were burnt in this town, belongeth to me also. So that God hath laid me low."

Major Pynchon's saw-mill, near the mouth of Stony Brook, was destroyed at this time and rebuilt in 1677.

Connecticut suffered less, the Indians within its borders being friendly. Simsbury, a border town, was burned March 26, 1676, by a band of marauding Indians from the north, belonging to King Philip's band, or to the Springfield tribe (Aggawams).

§Joseph had a grant of land in Suffield, 1682.

No Indian war had occurred since the Pequot war, forty years before, and the settlers had lived side by side with the red man. The treachery of the Indian character was well known, and constant watchfulness was required, yet no serious outbreak had occurred.

Church's History of King Philip's war estimates the number of Indians in New England at 10,500. "Trumbull" says 600 inhabitants of New England were slain in this war, twelve or thirteen towns entirely destroyed, and 600 families, consisting of 2,265 persons, were in distress. "Bancroft" estimates the loss of property destroyed at half a million of dollars.

This war terminated the occupation of the valley by the Indian as joint tenant with the white man, and the remnant of the hostile tribes fled to Canada and the West. Their knowledge of the best routes between Canada and New England made them valuable guides to the French and a terror to the colonists, during the long French and Indian wars which preceded the conquest of Canada.

Early in the year 1677 the committee announced to the scattered settlers that, "Whereas now thro the favor of God in scattering the Heathen, and giving us some quiet there is hopes of resettling there," they will not claim forfeiture of lands on account of abandonment, but will give them "forty days to declare their intendments, and full resolutions to settle there," and "failing to settle within 18 months, their allotments to be disposed of to such as will."

In the Spring of 1677 nearly all* who had grants settled upon them, and the town started anew upon its march of progress, and in the 200 years which have since passed by, has taken no backward step.

THE FIRST MINISTER.

The act of incorporation required that the inhabitants should procure and maintain some able minister.

In 1672 a house lot for a minister was set apart.

In 1679, November 17, the inhabitants voted "to build a dwelling-house for the encouragement of Mr. John Younglove, to become their minister." On the same day the committee granted him eighty acres of land; the house lot of thirty acres previously set apart for the first minister being a part.

Mr. Younglove had preached acceptably to the people of Suffield for some time previous to his call, and probably became their minister the next year (1680), but not with a full settlement.

Mr. Younglove, (perhaps) son of Samuel, of Ipswich, was appointed with Mr. John Pynchon in 1667, a committee for settling Quabaug

*Samuel Harmon, deceased, and Joshua Wells did not return.

(Brookfield), where he lived several years, and preached a year or two. He was a school-teacher at Hadley from 1674 until his removal to Suffield in 1680.

He had four sons and four daughters, the youngest child (Joseph) was the only one born at Suffield. No mention is made of his salary.

Judd's History of Hadley, says: "The salaries of ministers in small towns did not exceed 150 dollars; which with a farm, and lands, and wood, and with the frugal, economical habits of those days, gave them a good support." He was not a college graduate, but had a good education, as the position he filled would indicate.

His ministry here was not altogether satisfactory, as a few scraps of record show. No doubt his life was one of thankless toil, such as few of the clergy at the present time are called to endure.

In 1686 one acre of Steven Taylor's meadow land was "taken by distress" and conveyed to "Mr. John Younglove for unpaid minister rates due him."

In 1688 he spent six months of the year as teacher of the Hadley Grammar School; probably preaching here upon the Sabbath.

In 1690 the town voted to petition the County Court at Northampton "against Mr. Younglove preaching any longer amongst us."

While the case was pending death dissolved the bond. Worn and exhausted by the long struggle to maintain a large family, this seems to have been a crushing blow, as within two months thereafter he died (June 3, 1690).

His widow survived him twenty years, rearing and caring for her children.

It may be said to the credit of the town, that it provided for the "widow Sarah Younglove," for many years after her husband's decease. Mr. Younglove was made a Freeman in 1676, and was one of the few qualified voters at the first town meeting.

He probably was not an ordained minister, though the prefix Rev. is sometimes found in the record.

The family name has long been extinct in Suffield, but his blood flows in the veins of the Nortons, Grangers, and Nelsons.

FIRST MARRIAGES, BIRTHS AND DEATHS.

The first recorded marriage after the actual settlement of the town began was that of Joseph Harmon, with Hannah Filley of Windsor, January 22, 1673.

Previous to 1692, only magistrates such as the General Court authorized could join persons together in marriage; ministers and justices afterward being allowed.

THE FIRST WHITE CHILD.

It is quite certain that but one child was born at Suffield, before King Philip's War, and this was a daughter to Robert and Susannah Old, named "Mindwell," born February 4, 1674.

Robert Old came to Suffield from Windsor in 1673, and settled on the Northampton Road (called Old street), about a quarter of a mile northerly from the road to West Suffield. Another writer (Sikes) has accredited the *first white child* born at Suffield to Judah and Mary Trumble, March 5, 1674. This cannot be true, as Judah Trumble had not received his grant at this time;* and did not remove from Rowley to Suffield until 1676, after the Indian war, when the town was resettled in the spring of 1677.

The record of marriages, births and deaths was kept by the clerk of the County Court until 1692. After that, each town kept its own. All births, etc., which had occurred since the settlement of the town, and that of some families previous, were copied into the town book, in the handwriting of Anthony Austin. He has recorded there the birth of three of his own children, born before the town was settled.

The first Book of Records for this purpose bears the date 1702, and was copied from the Court Records, and perhaps other sources, at one and the same time, by Anthony Austin.

A mutilated portion of this volume remains. Fortunately its full contents were copied, and are to be found in Vol. 1 of Births, Marriages and Deaths.

THE FIRST MEETING-HOUSE.

The data for a description of the First Meeting-House is very meager.

It was probably built in the year 1680, and about the time Mr. Younglove became the minister. No mention is made of the building until five years later. There was a place for religious worship, and for town meetings, during this time, and it may be assumed that the Meeting-House had been built.

It was probably a two-story building, as was the custom throughout New England.

It is not supposable that permission would be given to erect "galleries," or that room for a "canopy" or "sounding-board" could be found, above the airy pulpit in a one-story building.

It was built upon the Common, south-easterly from the burial place, "and thereby room enough left on the high land there for training, and other uses, on either side of the Meeting-House."

*Savage's Genealogy.

It stood lengthwise north and south, the pulpit being on one side opposite to the great door on the other. "Mr. Ruggles, his pew," was south of the pulpit, probably the only pew in it, and built as a mark of distinction.

The gallery was built and occupied by the young men; and the floor of the building was filled with rude chairs and benches. It was a frame building clapboarded; but concerning its dimensions, its cost, or what other use was made of it, the Record is silent.

In 1701 the Selectmen were ordered to sell it. This ends its history.

The only allusions to the First Meeting-House found in the Record are the following:

April 6, 1685. "Agreed, & voted to begin the meeting on y^e Sabbath, at nine of the clock in the morning: and at half an houre after one of y^e clock in the Afternoone; And that the Townsmen shall upon y^e Towne's cost procure a ladder, and alsoe a red flagg to hang out for a signe, That persons may know the time for assembling together."

Dec. 26, 1686. "By a cleare vote Goodmⁿ Sikes was chosen to read, and set y^e psame on y^e Sabbath Day."

Dec. 16, 1695. "It was agreed & voted to put up a canopy, or Sounding Board, over the Pulpit."

"Also that Ensigne Pengilly, & Corporall Allyn in refference to their wives being thick of hearing: it was granted; that, they should have liberty to make them a seat before, or just under the Pulpit, somewhat higher than other seats for the better accomodating of them to hear the word dispensed."

Jan. 12, 1697. "It was agreed and Voted to build M^r Ruggles a pew at the South end y^e Pulpit" "Also The young men being put by their design of building a gallerie in the place where they had designed to build it: They were by a full & cleare vote allowed to build it at the North end of the Meeting House, and upon their non-acceptance, or refusal soe to doe any other were allowed the same liberty that would."

In October, 1699, it was "Voted to build a Meeting House (the 2^d one) 40 feet square"

Aug. 26, 1700. "Voted to set the Meeting House on the top of the Hill against the Burying Place,"

Dec. 16, 1700. "Voted to leave it with the Select Men; and committee the management of what is yet to be done in order to the finishing of the House of God all ready erected,"

March, 1701. "Voted to sell the old Meeting House, when the Town shall have no further occasion to make use of it for the service of God, and to leave the sale thereof with the Townsmen."*

MINISTRY LANDS.

Jan. 12, 1679, the Committee set apart for the Ministry 80 acres "to be improved, and to be continued for that use forever; and not

*Selectmen.

granted away or sold, or any way alienated therefrom." The 60 acre lot at the upper end of High St. was rented to various persons, and the avails applied to the support of the Ministry, for more than 100 years; when Jan. 3, 1791, by a vote of the Town it was leased for the term of 999 years to Elijah Granger at an annual rental of £21: 1s: 2½d (\$70 $\frac{4}{10}$), or pay into the Town Treasury the sum of £351.

Elijah Granger sub-let a portion (20 acres) of the Land, in 1798, to Howard Alden, and the remainder to Rev. Ebenezer Gay. Since that time many changes of possession, or title, have occurred, predicated upon the lease of 1791. The annual rent was paid by the different possessors, until 1844, and applied to the support of the Ministry. The heirs of Howard Alden and J. F. Fairchild are now its possessors.

The 20 acre Ministry Lot upon the East side of High St. has been leased for short periods of time to various persons, since the settlement of the Town, until Jan. 30, 1834, when it was leased for 999 years to Moses Cornwall, at an annual rental of \$70. The present occupants or possessors are Knox Brothers and Benj. F. Hastings, who hold the Land under this Lease.

MINISTRY MEADOW

Is situated west of Taintor Hill and contains about 13 acres. Five acres were set apart at an early period, and eight acres were added in 1716, in the second division of the Lands of the Town. This land was cared for by the Town, and the avails properly applied, until April 1, 1794, when the Town leased it for 999 years to Dan King 2d, at an annual rental of £8: 0s: 10½d (\$26 $\frac{8}{10}$), for the support of the Gospel. This lease for non-payment of rent became void. The Second Eccl. Society have had the avails or control of the Meadow since 1797, and have usually sold the grass upon it yearly to the highest bidder, or leased it for a short term of years.

DIVISION OF AVAILS OF MINISTRY LANDS.

When the Second Cong. Society was formed in 1740 the income from Ministry Lands was divided upon the lists of the taxpayers in the respective Societies. This mode was continued until Dec. 28, 1797, when the two Societies partitioned the lands by agreement, as follows: The First to have three-fifths of the income from the 60 acre Lot, and the whole of 21 (20) acre Lot. The Second to have two-fifths of the income from the 60 acre Lot, and the whole of the Ministry Meadow.

A further division and disposition of the 60 acre Lot was made by the two Societies May 25, 1844, by conveying their interest to Milton

Lester, and Don Pease for the sum of \$1173⁴⁰/₁₀₀, of which the First Society had three-fifths and the Second two-fifths. This alienation is against the letter and spirit of the Grant. The First Society have spent their share, while the Second have funded theirs in the loan and mortgage to and from H. E. Dibble of \$468.

FIRST GRANTS OF LAND TO SETTLERS.

The record of the acts of the committee in the "Old Book" is in the plain handwriting of Maj. Pynchon, and the record of the first allotments is in that of Samuel Marshfield. The first division of lands made by the committee to the first settlers of the Town, about one hundred in number, contained 6,258 acres. This was allotted in

*Book No. 5, page 210.

†No. 5, Pynchon Account Book, page 252.

‡No. 5, p. 214.

40, 50, 60, and 80-acre grants; "according to the quality, estate, usefulness, and other considerations of such persons as the committee approved."

From 1670 to 1674 inclusive, 38 grants were made, and so many desired to settle in the new Town, that the Committee "determined to fill up the place to one Hundred Families." These expectations were suddenly extinguished by the breaking out of King Philip's war, in the summer of 1675. During this war the Town was abandoned, and its settlement was not resumed until the spring of 1677.

From September, 1674, to February, 1676, no grants were made; at the close of the war, most of the planters returned.

Major Pynchon's saw-mill was burned,* and some dwellings† of the settlers. After the war the Town was rapidly resettled, and January 2, 1682, the Committee finished their labors of making grants to settlers, and March 9 following, a meeting of the qualified voters was assembled by their order, to whom was left the "managing of all y^e affaires of y^e Towne henceforward." Two hundred and four years have passed away, and without exception the little "Town Meeting" has annually assembled to choose its own rulers, and manage its own affairs according to law.

No settlement was probably made under the grants of 1670 or '71 and '72, until the spring of 1673, at that time Major Pynchon had completed a saw-mill near the mouth of "Stony River," and a dwelling-house near it.

Samuel Marshfield of Springfield, was employed by Major Pynchon as land measurer, to lay out the Town, and to measure out, and allot to the settlers their lands. He was afterward, at the first Town Meeting, chosen to be land measurer, "particularly to perfect all of old w^{ch} he had taken in hand, also any new to be measured."

In 1682 the General Court of Massachusetts‡ ordered that country grants of Lands should be surveyed only by surveyors on oath: and Samuel Marshfield was appointed surveyor in Hampshire County.

ALLOTMENTS.

The manner of division was peculiar. The first applicant had the first choice of location. Each could have a homestead or house lot, a home lot, a meadow, and some upland.

The area of meadow within the Town was estimated at five hundred acres.

*Maj. Pynchon's Letter to his son.

†Judd's Hadley.

‡Mass. Col. Rec., Vol. 5.

Each had from three to five different pieces of land in different parts of the Town, as interest or fancy dictated.

The allotments were usually made in quadrangular form of various widths and lengths. The corners were bounded by a bush, a stump or a tree, all perishable and soon likely to furnish a crop of disputed boundaries. This manner of laying out lands left many nooks and corners of undivided and forgotten land; afterward to be enclosed and appropriated by adjoining proprietors.

For this and other reasons the original grants* were proverbially certain to contain the amount of land called for by the record.

Thirty years elapsed before the First Division lands were allotted and occupied.

Land was abundant, and all had the free use of the Common for wood, timber and pasturage.

None of the lands of Suffield were laid out with the use of the compass, except the mountain in 1742, and the land west of it (south of the Old Westfield Line) in 1759.

The surveyor's compass was not in use in the Connecticut Valley† until about the year 1700. Land measurers had only a measuring chain, and perhaps a square to form right angles.

In that year the Conn. General Court‡ appointed "Public surveyors" for each of its four counties. Caleb Stanley, Jr., was appointed for Hartford County. These surveyors provided themselves with the compass, and other suitable instruments for measuring land.

PROPRIETORS.

The following may be considered a complete list of those persons who had grants of land from the Committee: and with a few exceptions were accounted "Proprietors" in subsequent divisions of Land within the Town.

Less than one half the number§ paid the purchase money; the majority having their land on credit, as an inducement to settle; the balance was used to pay "Town Charges" for the benefit of all.

*1744. "Voted: That all former surveys of land made in the Town of Suffield, before Captain Winchell was chosen land measurer; that were laid out on good rights, be confirmed to the owners of said lands, although large measure. That being the general practice of former land measurers to make large measure." Proprietors' Book, Vol. 1, p. 43.

SKETCHES OF PROPRIETORS.

Anthony Austin was the son of Richard (tailor), of Bishopstocke, Hampshire County, England. He came to New England with his father, mother, and brother (Richard), in 1638. The family settled in Charlestown, Massachusetts. The father soon died, about forty years of age, leaving a widow and two children, "Anthony and Richard," quite young. Anthony had married Esther, and removed to Rowley, in 1666, was freeman 1669, removed to Suffield 1674. He was Lieutenant in 1681, and Captain in 1697. He was the first Town Clerk for twenty-seven years. He accepted the office of school-master, in 1696, serving eleven years. He had three sons born at Rowley, and one son and three daughters born at Suffield. His wife, Esther, died 1698. He died 1708, aged about 72. Their descendants are numerous, some distinguished. His sons, Anthony, Jr., and Richard, had Grants, and were accounted "Proprietors." Both had large families, and lived and died in Suffield. His sons John and Nathaniel also settled in Suffield.

Edward Allyn, according to tradition, came from Scotland, 1636; had been a soldier under Cromwell, had a farm granted him at Dedham, 1649, was freeman, 1666, had a farm at Ipswich, 1670; had a barn struck by lightning and burned that year, containing sixty loads of barley.

He removed with his family to Suffield about the year 1679. He married Mary Kimball who bore him eleven children; the last two, Mary and Caleb, were born at Suffield. His farm was at the Ferry, where Edward, John and William, three of his sons, had farms adjoining. His wife died June 12, 1696; he died November 22, the same year. He held an estate valued at £256.

* His grist-mill grant.

† His grant as a petitioner.

Edward, Jr., removed to Deerfield, 1684, had a home lot; was clerk of the market and Town Clerk, 1704-12. Married Mercy Painter.

"John," married Elisabeth Prichard, of Suffield, February 11, 1682; had two sons born at Suffield, viz: "John" B., January 14, 1683; Richard B., September 17, 1685. He soon after removed to Deerfield. He and his wife were killed by the Indians May 11, 1704.

"William" married Johanna Dibble, December 29, 1692, who bore him eight children. He lived and died in Suffield. His widow married David Burt, of Northampton.

John Burbank, son of John of Rowley, married Susannah Merrill, October 15, 1663, and lived at Haverhill. He removed his wife and several children to Suffield, about 1680. His wife died October 10, 1690. Married second and third wife; the last bore him a daughter "Susannah." He was a large land-holder, and much employed by Major Pyncheon in building, and clearing lands in Suffield. He was one of the few qualified voters when the Town was organized, but never held an office. His name is found in Major Pyncheon's account book oftener than any Suffield man; and he must have been a man of business. His sons, John, Jr., and Ebenezer, were afterward prominent men in Town matters. His homestead was at the north end of Feather street. He died June 1, 1709.

Thomas Barber, son of Thomas of Windsor, born 1644; was in Gloucester 1662, in Newberry 1669; married Ann Chase, had child before he came to Suffield—had twins born at Suffield, February 1, 1677, named Joseph and Benjamin. Being the first twins born at Suffield, they had a grant of land (40 acres). Had sons, Aquilla, born 1679; Moses, born 1687; John, born 1684; and daughter Anne, born 1681.

John Barber, born 1669. Children born at Suffield, by Joanna his wife, were, John, born February 19, 1687; Joseph, born February 18, 1689; Hannah, born May 27, 1682; Mary, born February 8, 1683. He died August 29, 1690.

John Barber, Sr., son of Thomas of Windsor, and brother of Thomas of Suffield, born 1642, removed to Springfield 1671, to Suffield 1684, was freeman 1681. He was a deacon, also one of the first Selectmen chosen. Married Bathsheba Coggin of Springfield, 1665, and reared a family of children before his removal to Suffield. He died May 14, 1712. This surname soon after disappears from Suffield record.

James Barker, son of James of Rowley, removed to Suffield before 1679. His wife "Mercy" had children born here, viz.: Samuel, born April 16, 1679; Oliver, March 20, 1681. He removed to Springfield 1686.

Edward Burleson, 1st, where from unknown. His wife, "Sarah,"

bore him five children: John, born October 9, 1677; Fearnot, born December 18, 1679; Mary, born June 22, 1683; Return, born April 5, 1682; Edward, born March 1, 1686. His son John married Sarah Holladay; had nine children. "Burleson Brook" in West Suffield took its name from him. He had house lot in High street of eighteen acres. The family name disappears about 1745.

Samuel Bush had eighteen-acre house lot in High street. Had by his wife Mary, children at Suffield: Daniel, born November 2, 1679; Mary, born July 19, 1681. Removed to Westfield soon after.

James Barlow of Suffield and Sarah Huxley, were married January 10, 1688. He had a house lot on High street. He died March 16, 1690. A son James was born January 27, 1688, who married Mary Harmon, April 1, 1714. James, Jr., had a large family, and removed with them to Bedford (now Granville, Massachusetts), before 1746.

William Brooks, of Springfield, had a Grant of fifty acres in Suffield, probably did not remove to Suffield with his family. He had eight sons and eight daughters. His oldest sons, William and John, were killed by the Indians at Westfield, 1675. He removed to Deerfield, there died 1688.

Ebenezer Brooks, son of William, Sr., probably did not settle, as no record of his marriage is found here. He settled in Deerfield. His grant, as well as his father's, seem to have been made, in consideration of their loss of relatives killed by the Indians.

Nathaniel Cook was one of the first settlers of Windsor, freeman 1650, member of the church there 1662. Had a grant of forty acres in High street, east side, now the homestead of Henry P. Kent. It is not probable that Nathaniel, Sr., settled in Suffield. His son Nathaniel, Jr., born 1658, probably did; remaining a short time, returned to Windsor.

Isaac Cakebread, of Springfield, perhaps son of Thomas, had first been of Weymouth. Served as a soldier in Philip's war, on the Connecticut River; married 1677, Hepzibah Jones; was a freeman 1678; removed to Suffield where he had children: Isaac, born January 30, 1680; Rebeckah, born February 20, 1682. Some years after he removed to Hartford; there died, 1698, leaving Isaac, who died soon, and the name disappears in this region.

Thomas Copley, son of Thomas of Springfield, in Springfield 1672; married Ruth—— at Westfield, November 13, 1672, and had Thomas, born July 28, 1678. Removed to Suffield 1679, and had Matthew, born April 14, 1679; Samuel, born September 20, 1682. His first wife died October 5, 1692, and he married Widow Ruth Taylor for his second wife. No children recorded. He was Constable and held other offices. He died December 3, 1712.

Daniel Canada. His name is not found in the book of marriages, births and deaths of Suffield, and it may be supposed he had no family. His rights as proprietor became Ebenezer Burbank's. The name is seldom seen. There was a James Canada in Rowley, 1671.

Abraham Dibble, Boston, son of John, lived in Haddam, 1673, in Suffield, 1674, in Windsor during the war. His house lot was eighteen acres at the north corner of High street and Feather street. He died at Suffield, December 31, 1690. He was Selectman in 1685-86.

Benjamin, son of Abraham, had a house lot of eighteen acres on the north of, and adjoining his father. Swore allegiance to Massachusetts, 1679. He afterward settled at Simsbury. None of the name since that are found in the record. Captain Joseph Sheldon bought his proprietary interest.

Timothy Eastman, son of Roger of Salisbury, married Lydia Markham of Hadley, 1682; had son William, born at Suffield, 1684. Removed to Hadley 1690; there had Lydia, born 1691; Sarah, 1694; Timothy, 1697. William died unmarried, and Timothy, Jr., left no male heirs, so the family name in this branch became extinct.

His grant was fifty acres on Feather street, bounded south on the old road to High street.

Joseph Eastman, brother of Timothy, and son of Roger, born 1651, Salisbury, had fifty acres of land on both sides of "Rawlin's Brook," bounded east on the Great River. He was a tanner by trade, and Major Pynchon's account book proves that to have been his occupation while here. He married Mary Tilton of Hadley, and had three children born here. Mary, born 1684, died 1685. Joseph, born 1683; Peter, born 1686. He returned to Hadley, 1690.

Zerubbabel Filer of Windsor, son of Walter (who was a first settler there, and one of John Warham's church), born at Windsor, 1644, married daughter of Elder John Strong of Northampton, 1669; lived at Windsor until 1677, when he removed to Suffield. Had five children born at Windsor, and four at Suffield. Returned to Windsor, 1683, where he had four children more. Died 1715. Samuel, his son, had a grant, but died young.

John Filley, son of William of Windsor, Conn., born 1645, married Abigail Dyble of Suffield, (probably daughter of Abraham,) February 1, 1681. He died at Suffield, 1690, leaving three daughters. Since that the name is extinct upon Suffield record.

David Froe was an Irish servant at Northampton in 1668, married widow Priscilla Hunter of Springfield, 1678; had daughter Abigail, born 1679 at Suffield, and died 1689, April 28. He died June 7, 1710. His widow died December 19, 1725. The family name became extinct.

Launcelot Granger was in Ipswich, 1648; removed to Newberry; married Joanna, daughter of Robert Adams, 1654; had eleven children; removed to Suffield 1674. In 1676 he was wounded by the Indians, receiving a ball in the leg, which he carried for life.

Four of his sons had families in Suffield. Thomas and George were proprietors, and had house lots adjoining their father's in High street.

He was land measurer several years, and ancestor of all of the name in Suffield, including Hon. Gideon and Francis, Postmaster Generals.

"Farmer's Register" says he died at Newberry. Suffield Record says Launcelot Granger died September 3, 1689.

Gregory Gibbs from Windsor, Conn., son of Giles, born at Windsor, 1649, was of Springfield, 1677, and at Suffield, 1683 or before. He married Joyce, widow of James Osborne. He died March 15, 1707. No children.

Samuel Glover, son of Rev. Peletiah Glover of Springfield, had sixty acres on his father's grant; his house lot on High street was afterwards Rev. Ebenezer Gay's. Was born November 28, 1661; died July 24, 1689, unmarried.

Simon Gowin, from Rowley, was a soldier in Captain Appleton's Company, and wounded at the battle at Narragansett Fort. His land was above the ferry. No family is recorded; perhaps he did not long remain.

Francis Harmon came in the ship Love, 1635, aged forty-three, from London, with children, John, age twelve, and Sarah, age ten, but no more is known of him.

John of Springfield, 1644, probably son of Francis, was a first settler there, and had a house lot on Main street; where he married is unknown. He brought a wife, Sarah, and two children, John and Samuel, when he came to Springfield, and had six others born there, of whom were Joseph and Nathaniel.

Samuel Harmon was the oldest of the three Harmons, who were the pioneers of Suffield. Ten years before the settlement began, the Harmons had endeavored to procure a grant for a new town. They were great hunters and trappers, as the number of beaver skins and other furs sold to Major Pynchon indicate, and were probably more familiar with the topography of the town, which was a dense wilderness, than any other white men. Samuel was unmarried. He returned to Springfield, where he died September 7, 1677, about thirty-six years of age. His Suffield lands became the property of Joseph and Nathaniel.

Joseph, born at Springfield, 1647, married Hannah Filley of Wind-

sor, 1673, had nine children. She died at Suffield August 28, 1729. He died October 28, the same year.

He was a freeman, and voted at the first town meeting, and chosen a selectman, which office he filled for many years, the last time in 1719, when seventy-three years of age. He was treasurer, land measurer, and often employed in settling boundary lines. He was appointed Captain of the Suffield militia company, after the death of Captain Joseph Sheldon, 1708. For more than fifty years he held some important town offices. He first settled on Northampton Road (now Remington street). After Philip's war, his house lot was in High street.

Nathaniel Harmon, born at Springfield, March 13, 1654, married Mary Skinner, November 19, 1685; had ten children. She died 1711. He died May 2, 1712. He held some town office constantly, but was not a qualified voter when the town was organized. His house lot was in High street, and his farm on the Northampton Road. His children were pioneers of West Suffield.

Timothy Hale was from Windsor, married Sarah Barber, daughter of Thomas. Brought his wife and seven children to Suffield, about 1679. He died 1689. Two of his sons, Timothy and Samuel, settled in Suffield. His house lot was on High street. In Windsor record it is written "Hall." The name until within a short time has been common in Suffield.

Walter Holladay of Springfield, in 1673, married Catharine Hunter. Had Ebenezer, born 1675, and William, then removed to Suffield; there had Samuel, 1680, Sarah, 1683, Mary, 1685, Isaac, 1690, Abigail, 1692. He died September 21, 1709. The name is not common, and there is none to be found previous to his. He is probably the ancestor of all of this name in New England, as well as those who remain in Suffield.

John Hodge lived at Killingworth, 1664; married Susanna Denslow of Windsor, 1666; had seven children before removal to Suffield; there had William, born April 10, 1678; Elizabeth, born February 13, 1680; Susannah, born December 10, 1682; Abigail, born March 7, 1684; Samuel, born October 4, 1686. The family did not long remain in Suffield. He was recorded as an inhabitant at the first town meeting.

Thomas Huxley, Hartford, married Sarah, daughter of Thomas Spencer of Hartford, later of Suffield; had five children before removing to Suffield, 1678, and afterward four more, viz.: Jared, 1680, Hannah, 1682, Nathaniel, 1683, William, 1687.

Sergeant Thomas Huxley was by a vote of the town in 1686, chosen keeper of a "Public House for Entertainment." This was situated

on High street, now Thaddeus H. Spencer's house lot. His wife Sarah died October 24, 1712. He died July 21, 1721. He was a freeman, 1681, and held important town offices. His descendants remained here many years, but the name has long since disappeared from the records.

Deacon Thomas Hanchet, probably brother of John of Boston, was in Wethersfield 1649, and his son John was born there at that time. Deacon Thomas removed to New London 1651, was there three years, was at Northampton 1660, was Deacon 1668, removed to Westfield, thence to Suffield, where he died June 11, 1686. He is the ancestor of all of that name who have dwelt in Suffield.

REPORT OF THE COMMITTEE TO THE GENERAL COURT.*

BOUNDARIES ESTABLISHED.

May 20th, 1674. The Honor^d General Court in October 1670 having granted a tract of Land to the content of sixe miles square on the West Side of the Ryuer Connecticot, between Springfield and Windsor, to severall persons for a plantation: and having likewise appointed a Committee to manage the affaires thereof; the sayd Committee hereto subscribing, did lay out the bounds of the sayd plantation on the 21st of March 1671, and would have made returne thereof to the Honor^d Generall Court there next following; had not they delayed in reference to the settling the line between this Colony and Connecticott Colony, which possibly might have occasioned some alteration.†—But that Colony not manifesting their acceptance of the concession of this Court—The said Committee haue thought it meet: severall families being there already settled—not to delay any longer, but now to make return to this Honor^d Court of their worke in laying out the bounds of the s^d Plantation: Which are as followeth: The North bounds of this new plantation: joyning to Springfield South Bounds, on the west side of the Connecticot Ryuer is at a little gutter about halfe a mile below the Brooke commonly called the three mile brooke below Lieut. Cooper's house viz! At two tall middling trees standing about two foote from each other, the one a walnut, the other an oak, which stands on the knap or brow of the hill on the north side of that gutter by the great Ryuer Side, within three or fower rod, where the gutter emptyes itselife into the Great River—The sayd trees being marked: are the north bounds of this new plantation—and thence the bounds run ypon the due west line about fower miles and a half from the Ryuer Connecticott: till it meet with Westfield Bounds: and from the sayd two trees, the East bound is the s^d Ryuer Connecticott and is sixe miles southward ypon the square from the sayd west line.

The south border of this new plantation is a due west lyne drawne from a large white oake, marked standing on the banck of the Ryuer Connecticott; two or three Rods from the s^d Ryuer: and about a halfe a mile below the Island, neere the foote of the falls in the Great Ryuer, and from the said white oake the south border extends seven mile and a half due west, many trees being marked in that range or lyne.—The sayd Committee have also settled one hundred acres of Land

for the Generall Court and Country's yse as the Court enjoyned lying on the South Side of Stony Brooke neare where Northampton and Springfield ways to Windsor meet; there being a tract of good land, and not farr from the place called the Meeting House hill. And the other fower Hundred acres of Land for the Country is to lye at the South West corner of this Plantation there being good land in that Quarter for that purpose.—The said Comittee doth also humbly propose: that the Honor^d Court would please to grant this Plantation seven yeares freedome from Country Rates, as incouragement for the planters; it being a very woody place, and difficult to winne: also that the name of the place may be Suffeild, (an abbreviation of Southfeild,) it being the souther-most town that either at present is: or like to be in that Country, and neere adjoining to the South border of our patent in those parts.

In the name of the Comittee.

The Court approves & confirms this returne of the Comittee, that of rates only excepted & instead thereof doe grant to y^e s^d plantation fower yeeres exemption from Country rates.

CONCESSION OF THE MASS. GENERAL COURT TO CONNECTICUT AS
TO ENLARGEMENT OF WINDSOR BOUNDS.*

JOHN PYNCHON'S DEED.†

These presents Testifie that I John Pynchon of Springfield several yeares since Made a purchase of Lands at Suffield of the Indians for the Inhabitants of Suffield and particularly bought the Land on the Northerly side of the town of Suffield next to Springfield & adjoining to Springfield Bound of Pampunckshat, and the Land from thence southward against the Falls and downward a great way Southward of, below Stony Brook, taking in Pipestave Swamp so called, and all the Land westward from the River toward Masaco‡ of Misknousqus alias Margery to whom the right of all those Lands did then belong by the acknowledgment and grant of the chief Indians, which Lands; that next to Springfield on the North where the line runs between Springfield and Suffield was bought of Pampunckshat, & from Springfield line southward along by the Great River down to Lacows, or Lacowsick, about the Falls, & from all that breadth, or length out westward several miles till it meets with Westfield Bounds: this Pampunckshat sold, and from Lacows or Lacowsick, and so southerly toward Windsor a great way below Stony Brook; and the Land being called Squotuck, Maygauag, Wecups &c by the Great River on the East; from whence it runs Westerly many miles, taking in the ledge of hill, or mountains; and taking in Ashawalas, and Wenekeiamaug, and all the swamps thereabouts down toward Masaco, & particularly the swamp by the English called Pipestave Swamp, together with all the Woodland, Swamp, Marsh, and uplands, all which were bought, and purchased of Misnousqus, alias Margery. Whom I well and truly paid for the same to their satisfaction, as by their severall Deeds for Said Land appears. For all which I have Received of the Inhabitants of Suffield Forty Pounds: and do hereby acknowledge the same, and to be fully satisfiied and contented therewith. For purchase of Said Lands and do hereby

* This so-called concession was not accepted by Connecticut, and the line between the towns of Windsor, Simsbury and Suffield remained unsettled until 1713. The commissioners allowed the claim of Simsbury; and Suffield was shorn of its south-western corner. This ended the complaints and troubles which had existed more than 40 years, and the Suffield planters abandoned with sore hearts their dreams of wealth which were supposed might be realized from the mines of copper and iron within the disputed territory. It is agreed and concluded by the Said Committee that the Land in this place be proportioned unto about four score shares, or House Lots, at present & that the Lots shall be of four sorts, or ranks, to wit! the Highest or Greatest Lot, or share. Eighty Acres & no more at present: The second sort or rank of Lots Sixty Acres: the third Fifty Acres: and the lowest Allotment Forty Acres. And by reason of the scarcity of Meadow in the place, that the Meadow be thus

* Before 1752 the year began March 25th throughout England and her colonies. After that date, by an act of Parliament, the year began January 1st, which had been the rule in Catholic countries since 1582. On this account it was common to double date between January 1st and March 25th. The lower figure accords with the present mode of reckoning.

proportioned (Viz: Eight acres of meadow to an eighty acre allotment.

Six acres of meadow to a Sixty acre Lot. Five acres of Meadow to a Fifty Acre allotment, and four acres of Meadow to a Forty Acre allotment: and because Meadow is so scarce, that it is doubtfull whether it will reach to the small proportion afores^d it is therefore agreed and ordered, that all such low and good land, or swamps as shall be judged in stead of Meadow: It shall be accounted and proportioned for meadow, and where any meadow, or any such low and good swamp Land as afores^d shall fall within any man's share, or allotment of upland, it shall be accounted Meadow to him: and reckoned as part of his share of meadow; yet so as, that his whole allotment shall be made up to him notwithstanding.

2^{dly}. It is agreed that for the determining what sort or rank of ollotment shall be granted to any Planter or admitted Inhabitant Respect shall be had to the Quallity, Estate, Usefulness, and other considerations of such Persons: and according thereunto the share or Grant of allotment to be proportioned to each Planter as the Committee (direct).

3^{dly}. It is agreed and ordered that whatever Divisions of Meadow Land may be hereafter; If any more Meadow Land be to be divided; and all after divisions of other Lands, Woods and Pasturages, shall be made to every Planter accepted and admitted, according to the aforesaid Proportions or Grants of Allotments to him.

4^{thly}. 5^{thly}. In regard to this Township by reason of the lying of the Land must be cast into several Divisions: It is therefore ordered, that between each Division there be Highways laid out of sixteen, or twenty Rods broad, and also Convenient Highways of about six, eight or Ten Rods Wide among the Lots for turning, and driving Cattle into the Common, and for the pasturage of Sheep.

6^{thly}. And because we cannot foresee What Need may be of Highways hereafter in Places which are not now thought on: It is therefore ordered: that all Highways, which shall by the Committee, or afterward by the Select Men of this Township be judged usefull for the Inhabitants within Seven years after each man's Grant and settling in the Place, they shall be laid out, where they may be thought most Convenient, and usefull for the Publick advantage: Notwithstanding any Man's Propriety there. All Grants of Land to every man being hereby declared to be made to the Grantees, with the Reserve of Highways to be laid out throu their Land if need shall be found thereof within Seven years after their Grant and Settling; only It is provided that so much Land as is taken from any man, for a Highway, the like Quantity of Land shall be Allow^d him in some other place, and that as

good for the Quality of it in the judgment of the Committee—or Select Men; and no other allowance to be made for Land taken from men for Highways in Seven Years after their Settling.

7^{thly}. It is agreed that such Persons who first appear to plant this Town: they shall have liberty of Choice in which Division to settle, and they to have their Lots there.

8^{thly}. It is agreed and Determined that the Petitioners* for this Place Who obtained a Grant thereof from the Honored General Court in October last, they shall all of them have allotments there if they desire it, and will signify so to the Committee by the 20th of May next; and that they will in three years and a half from the said 20th of May next; fence, and improve some Acres of Land, and all other Persons who shall desire, and have Lots granted them in this place, they shall within six months pay their proportion to all common charges; and shall also within three years and a half from the 20th of May next improve their said Land by fencing, and Clearing some Acres; and building on it, so as to be there Inhabiting, and fully settled by the time Viz! the 20th of November 1674, that it may be accounted truly the Place of their fixed Residence, and settled abroad; or otherwise their Grant shall become void, and all their Land there Return into the hands of the Com^{tee} to Dispose of to any other Person who may come and settle there: And such as thus loose their Land by not settling on it, shall also forfeit all their Charges they have expended thereabout, provided always the Comm^{tee} Do Reserve power in their own hands to dispense with the strictness of their orders in some particular cases where they shall see good reason for it.

9^{thly}. It is further ordered that all persons thatt shall have Grants of Allotments: and shall settle on them, they shall for seven years Continue their Dwelling there, or settle them as aforesaid, Before they shall have any power to sell, alienate, or any ways dispose of any of their said Land to any other person, or persons, and then to such only as the Committee or Select Men approve of.

10^{thly}. It is further agreed that if Persons of considerable Quality, or Estate, who may thereby be a furtherance to the place shall desire accommodation of Land yet not being willing to engage the settling there in their own person: such person or Persons, if they will Ingage the Disbursing such considerable Estate there as in the Judgment of the Com^{tee} will be advantageous to the Place, they may also have Grants of Land there, provided that if they shall not see Cause to live there themselves, they do settle such persons on the Land Granted them, as the Comm^{tee} shall approve off, and Continue him or them as aforesaid.

11^{thly}. It is ordered that a Convenient allotment of 60 or 80 acres near the Centre of the Town be Reserved for the property of the first Minister† that shall settle on the place, and have this Lot unless he be otherwise provided for by some particular Grant to him as a planter.

12^{thly}. It is ordered that a convenient allotment of 80 acres be set apart for the Ministry,‡ & to continue, & be improved for that use for Ever, & not Granted away, or sold, or any way alienated therefrom. The true intent of this Order & Grant is the Continuance of this Allot-

Hundred Acres more for the use of the Country: Also in some Convenient place on the outside of the Bounds of this Township, according to the Order of the General Court.

15^{thly}. * That there be a Convenient Piece of Land, of about twenty or thirty acres, laid out in the Center of the Town, and set apart for the Common Use: as to set the Meeting House on, or School House; or for a Training Place, or any other Publick Use to be left Common.

16^{thly}. Present CAPT HOLYOKE,

J PYNCHON,

ROWLAND THOMAS,

Agreed to lay out the Bounds of Stony River Plantation, according to the Grant of the Honored Gen^l Court, to the content of Six Miles Square, and that the South bounds of it be a little below the foot of the Island; or near about half a Mile below the Island, in the Great River against the Falls. As Lt Cooper, and Quarter Master Colton, who are appointed to go about the work To morrow, shall see meet. This being near about Six Miles from Springfield Bounds to that Place, They are to begin thereabout at the Great River, and thence to Run on upon a West line at least Six Miles or more, and Charles Fery, Joseph Leonard, Samuel Harmon and Joseph Harmon, are appointed to attend them in this work for running the Line, and Marking it out. And what they shall do herein; they are Speedily to make Return thereof to the Committee.

The Return of the Persons above mentioned, which were appointed to lay out the Bounds of this Plantation, is as followeth.

We began about half a Mile below the Island in the Great River at the Falls; upon the top of a rising, or Hill; *Where there had been a cellar dug,** being about Eighty Rods above the Brook, on the East Side of the Great River: commonly called Saltonstalls Brook, against which, we Marked a Great Tree on the West Side of the Great River. The first Tree we marked, being a large White Oak, standing 2 or 3 Rods from the Bank of the Great River. The 2^d Tree we marked was a Black Oak in the Range about 6 Rods further Westward, and so running on upon a West Line Six Miles, Marking several Trees in the Range, we fell under the East Side of the Foot of the Mountain. The line running about 20 Rod to the Northward of a pretty large Marsh, or Meadow, which lay on the south of our line, and over the swamp which goeth down on the Back Side of this Meadow, about 2 Rod to a Great Black Oak, which we marked on all four sides. That this is a True account of what we have done:† Witness our hand this 21st day of March 167 $\frac{1}{2}$.

These Persons went on the Range but six miles, but the line is to go on further West, a Mile and a Half more, to Make Seven Miles and a Half, and so this Return is accepted by the Comm^{tee}.

So the North Line, by Reason of Westfield Bounds, Can be but Four Miles and a half.‡

Having Consideration of y^e most convenient settling of Highways, wee upon view of y^e Places, Doe determine as followeth 1st. That y^e Highway Downward toward Windsor, is best to goe over Stony brooke a litle below Tho Copleys,‡ to turne out of High Streete, where we have Pitch y^e stake in y^e front, for y^e lower or south side of Tho Copleys lot, there the way to turne to y^e sow west (though Posibly a smale lot or Two, may hereafter be allowed to be there) & so goe a litle slanting fro' his lot downe by y^e River a litle way & §then Passt over Stony River just below Tho Copleys land w^{ch} is on y^e sow west side of y^e River And thence this way as it will be y^e Road to windsor; so also it serves to goo to y^e stone pit|| & into y^e woods.

*This Front is now occupied by the Bank, Thomas Archer, & D. Hale Lots.

†This Lot was on the North corner of the Highway to West Suffeild. The old cemetery containing 1½ acres adjoined its North East corner. The Congregational Parsonage, an addition to the cemetery, and several dwellings are now upon it.

‡Now M. J. Sheldon's.

§This ford was about 4 Rods below the present bridge.

||The "Pit" seems to have been free to all from which to quarry stone for building purposes. It was near "Luce's Gristmill."

Also we Determine That y^e Highway, * out of High Streete to the Mill, ly betweene Nathanel Cookes lot & Major Pynchons Corne Mill lot, † w^{ch} he takes up in High Streete. This way to be taken out of these 2 lots & “to about 3 rod broad, & for 30 or 40 rod fro’ y^e front of them, to run straite in y^e line betweene them, & then turne southward aslant Nathanel Cookes ‡ lot, & all y^e lots downwards as will be most convenient for y^e Highway, & Passing to y^e Mill. The Highway into ffeather Streete, upon view of all places, & considerations of suting y^e Inhabitants, wee judge it best where it is laid, & doe there state it to ly 12 Rod broad, betweene Steven Taylor’s lot w^{ch} was allowed out of Saml Roes lot, & Abraham Dibbles lot. Abrah Dibbles § lot lying on y^e North side of this High-way, 12 rod in breadth, This Highway to, and from ffeather Streete, as it comes into High Streete, it is to turne a litle off at the Norwest corner, Taking off some few rods of y^e corner of Abrah Dibbles lot, & so rounding of it to sute wth y^e Highway w^{ch} is to goe by Jonath Winchell westward. || Abrah Dibble being to have allowance in y^e bredth; for what this way takes from him.

Also a Highway ¶ we determine, to be laid fro’ High Street Westward to goe over Muddy Brooke. This way to turne out neere about y^e Meeting house Hill, & to ly along by Jonath Winchells lot* on y^e North side of it, w^{ch} Highway is to be 10 or 11 Rod in bredth, & to Run y^t bredth tillit come to y^e ** New Bridge w^{ch} is made over Muddy Brooke, & there to goe over y^t Bridge; & whereas some p^t of that Bridge & y^e going on to it, is s^d to be in Jonath Winchell lot, & so a litle corner of his land must be made use of for y^e way. We doe order: That therefore so much of his land as is needful, shall be taken off to accomadate y^e way sufficient w^hout p^rjudice to it, for w^{ch} he shall have allowance out of y^e Highway, & y^t by way of addition to y^e bredth of his lot: This Highway when over Muddy Brooke is to be 8 rod broad, & run y^t bredth still westward along by Nathanel Harmon’s †† land, on y^e north side of it, till it come to a Devission of land there, formerly alloted to several p^rsons, & falling into a ‡‡ Highway there out of w^{ch} it presently turns Westward into y^e commons. §§

OUTLINE SKETCHES.

THE FIRST TOWN MEETING.

Most of the early settled towns were founded under grants from the general court to companies, or individuals, with certain conditions, such as those in the Suffield grant, without any more formal act of incorporation.

Eleven years had elapsed since the grant was made, and two of the committee had died. The remaining members having more than fulfilled the conditions of the grant, and desiring to be discharged, procured an* order from the general court of Mass., by which a meeting of the inhabitants qualified to vote was ordered to be held March 9, 1682.

The first town meeting was held March 9, 1682. There were thirty-four qualified voters, including Maj. John Pynchon.

The list of voters, and the record of this meeting in the "old book," is in his handwriting. No moderator was chosen, and he probably served in that capacity. Five selectmen, a town clerk, two highway surveyors, a land measurer, and a sealer of leather were chosen to serve one year. No treasurer was chosen, or needed, as neither taxes, salaries, or debts were paid in money, but in grain, provisions, etc., the prices current of which were regulated by a vote of the town, and was called "town pay."

From this time the town records are made up of the names of town officers, votes about receiving inhabitants, laying out highways, settling town lines, settling and providing for ministers, and for schools, building and repairing, and seating the meeting-house and school-house. taking care of, and dividing the common lands, providing for the poor, etc.

A careful examination of the records of families makes the entire population about three hundred souls. Twenty-five of these family surnames are now represented here, by lineal descendants.

PROPRIETORS.

The persons to whom the committee made grants of lands, had become the "proprietors," or owners of the township. There had been dis-

*No record of this order is found in the Colony Acts.

tributed by the committee 6258 acres. The remainder, amounting to more than 15,000 acres, was owned, controlled, and divided by, and among these proprietors, as the majority directed. In 1682, sixty-two proprietors were heads of families, thirty-four unmarried; and some of these were boys. Sixteen others, including the committee, none of whom settled here, disposed of their rights and franchises to admitted inhabitants and permanent settlers.

Deacon John Hanchet, who died Oct. 23, 1744, aged ninety-five, was the last survivor of the original "proprietors" of the town of Suffield.

THE SECOND MEETING HOUSE.

The second meeting-house was erected between Aug. 26, and Dec. 16, A.D. 1700.

Its site was "on the top of the hill against the Burying Place." The same substantially as that of the present congregational church edifice.

Its master-builder is unknown, but he was probably from one of the "upper towns."

It was "40 foot square, clapboarded and shingled." It had a gallery, and probably two rows of windows, although the height of the structure is not recorded. The sum of sixty pounds, one half in silver money, and one half in town pay, was voted to defray the cost.

It was ready for use Jan. 7, 1702, when difficulties occurred about the seating, and the services of Col. John Pynchon were required to adjust this formidable question, a matter that caused our ancestors a deal of anxiety, and is not yet altogether at rest.

The first meeting-house was probably located, and built upon the common, as a temporary structure, and was used about twenty-two years.

The second was a more imposing affair, and with but few external changes, stood until April 25, 1749, when it was taken down to give place to a more modern structure.*

SETTLERS AND FOUNDERS OF FAMILIES.

1682-1715.

Jacob Adams, son of Robert of Newbury, Mass., was born there Sept. 13, 1651, married Ann Allyn, April 7, 1677. Children: Dorothy, born June 26, 1679; Rebecca, born Aug. 26, 1680; removed to Suffield, had children: Jacob, Daniel, John, Abraham, born Nov. 10, 1687;

* See town acts, 1699, 1700, 1701, 1702, 1708, 1710, 1711, 1722, 1723, for building and seating the meeting-house.

Ann, Elizabeth, born Aug. 16, 1692; Sarah, all of whom were mentioned in his will. He bought his brother John Allyn's farm near the ferry, and became a prominent man in town matters. He was a representative at the general court for the years 1711, 1714, 1717; dying at Boston in Nov., the latter year. His four sons settled here, and had families. The family name is yet represented here in their posterity.

Joseph² Fuller (carpenter), the Suffield settler, and ancestor of all the Suffield Fullers, was gr. son of John of Newton, Mass., the immigrant, and son of Joseph¹ (carpenter) of Ipswich. He was born there July 4, 1685. Joseph, Sen., was a soldier under Capt. Turner in the Falls fight in 1676. In 1696 he bought of Samuel Bush his Suffield proprietary grants, which included his eighteen acre house* lot in High street, adjoining John Hanchett's. He did not remove here, but in 1714 deeded these lands to his son Joseph,² who married Bathsheba, daughter of John Hanchett, Sept. 18, 1715, and became a permanent settler here. His descendants have not been numerous, but usually substantial and honored inhabitants. Joseph² the Suffield settler, died March 7, 1744. His children were Mary and Bathsheba, born June 11, 1716; Mary died April 17, 1717; Mary, second of the name, born May 8, 1718; Sarah, born May 31, 1720; Hannah, born Oct. 3, 1721, died Jan. 2, 1722, and Joseph³, born Aug. 25, 1726, who had five children, and died at Suffield March 25, 1807.

Joseph Pomrey, ancestor of all of the name in Suffield, was the son of Medad of Northampton, and grandson of Eltweed of Windsor, the immigrant. He was born at Northampton, June 26, 1672, and married Hannah Seymour, Nov. 29, 1692. By a vote in town meeting 1699, he was invited to settle, and abide here, and to follow his trade (blacksmith) for the benefit of the town; with the added wish that it might "please the Lord to bless him with health and strength so to doe."

Forty acres of land was given him "for inheritance." He removed here in 1699. His children were: Hannah and Eliakim, who died young. Hannah, second of the name, born July 15, 1702; Benjamin, born Nov. 19, 1704, who became a distinguished minister and reformer at Hebron, Conn. Nathaniel born Jan. 23, 1707, settled in Suffield; and Noah, born Oct. 20, 1709, at Suffield. He was a captain at the time of his death which occurred Dec. 16, 1712. Col. Seth Pom-

eroy of revolutionary fame was his nephew. Eltweed Pomeroy is believed to have been the progenitor of all who bear this surname in this country. His descendants have been very numerous, some distinguished, and generally prominent, and substantial inhabitants in the communities where they dwelt.

Quinton Stockwell, (husbandman,) lived at Hatfield, and removed to Deerfield where he was captured by the Indians Sept. 19, 1677, and carried to Canada. The story of his sufferings and captivity is told in "Remarkable Providences," by the Rev. Increase Mather. He took the oath of allegiance Feb. 8, 1679, and about this time removed to Branford, Conn. Aug. 24, 1683, he was admitted an inhabitant of Suffield, with a gift of forty acres of land for his settlement. His[†] homestead was eight acres at the upper end of High street, west side.

His children by his wife "Abigail," were John, b. Oct. 8, 1676; Eleazur, born at Branford, Nov. 16, 1679; both were married, and had families recorded in Suffield.

Quinton Stockwell was an esteemed and respected inhabitant, serving the town in many of its local offices.

He died January 22, 1715. His widow died May 5, 1730. Not long after, the surname disappears from our records.

Mr. Joshua Leavit (Inholder). Bought the house-lot with buildings, that had belonged to the first minister, for the sum of 127 pounds, A.D. 1714, and settled here at that time. He bought the proprietary rights of John Watson, was Clerk of the Market in 1715-16, and Sealer of Weights and Measures for many years; was a Lieutenant in 1729.

He was the son of "Josiah," of Hingham, Mass.; and grandson of John the immigrant, who was first at Dorchester, then at Hingham. He was born at Hingham, Aug. 1, 1687. Married Hannah — in 1714; children recorded at Suffield, are Hannah, born April 1, 1715, died Oct. 23, 1732; Joshua, born Mar. 1, 1716, died Oct. 31, 1732; Freegrace, born August 12, 1719; Jemima, born November 10, 1722; John, born July 16, 1724; Ichabod, died in infancy. Hannah his wife died November 24, 1726. He married second wife, Mary Winchell, January 29, 1730; children, Jonathan, born January 11, 1731; Hannah and Mary, born April 16, 1733, and after their father's decease, which occurred October 22, 1732.

"Princess," his negro slave, died November 5, 1732.

His son, John Leavitt, married Abiah Kent, June 20, 1745; twelve children are recorded to them. Their third son, "Thaddeus," was a man of note; was one of the Commissioners for Conn. to establish the State Line in 1803. He died in 1813, in the sixty-third year of his age. None of the name are now to be found in Suffield.

Asaph Leavit (carpenter), brother of Joshua: Bought George Granger's house-lot on High street, supposed to contain eight acres, for the sum of forty-five pounds, and settled here, A.D. 1714. He married Ruth Devotion, March 28, 1717. She died April 23, 1718; for second wife, married Margaret Bissell of Windsor, August 30, 1722. He was Representative 1750-55—6 years. Appointed captain 1751.

Captain Asaph Leavitt died April 14, 1774.

Joseph Sheldon bought, August 1, 1699, for the sum of fifty-five pounds, of Victory Sikes, his house-lot of twenty-one acres with a mansion thereon. This lot was a first-grant to the Rev. Peletiah Glover, and nearly 100 years has been the homestead of the Revs. Ebenezer Gay, father and son, and now belongs to their heirs.

Joseph Sheldon removed from Northampton to Suffield at the time of his purchase, and became at once a leading man in town affairs; was Selectman in 1700-3; prominent in the Boundary difficulties with Simsbury and Windsor; was made Ensign 1702; Captain 1707; was Representative to the General Assembly at Boston, 1703, also in 1705, and was continued in that office until his death at Boston, July 2, 1708, when the Governor, and both branches of the General Assembly attended his funeral.

His descendants did not remain in Suffield. His son Joseph sold the homestead, with the "mansion and buildings," to his cousin Josiah (merchant), son of Thomas. Captain Joseph Sheldon was the fourth son of Isaac of Northampton, born February 1, 1668; married Mary the daughter of Joseph Whiting, and grand-daughter of Major John Pyncheon, 169-; children, born at Northampton, were Joseph, 1695; who died same year; Amy and Mary: children born here; Joseph, December 26, 1700; Rachel, born March 8, 1703; Benjamin, born August 26, 1705. His widow married John Ashley, of Westfield. By inheritance, and purchase they were owners of the Island in the Connecticut River, A D. 1717; and of the Pyncheon * saw-mill lot, at

the mouth of Stony Brook, which they sold to John Elliot, of Windsor, in 1712, for 35 pounds.

SUFFIELD MINISTERS.

1680-1749.

JOHN YOUNGLOVE—The First Minister.

John Younglove* had a settlement in lands here, the same as his successors, and received the house-lot with a dwelling upon it which had been set apart for the first minister. In 1858 the First Congregational Church erected a monument to the "First Pastor," Benjamin Ruggles, while not a slab or stone marks the grave of John Younglove, the town's "First Minister."

His sons Samuel and James had families, and lived in Suffield and were prominent in town affairs. James died Oct. 21, 1723. There is no record found of the death of Samuel.

The following record of a meeting of the inhabitants of Suffield, is found upon a mutilated fly-leaf in the Old Book, and is the only recorded act of the inhabitants before the organization of the town. This record is in the handwriting of Samuel Partrigg, then clerk of Hampshire Co. Court. The words and letters enclosed in parentheses are supplied. In this vote the salary is mentioned.†

At a legall meeting of y^e Inhabitants of Suffield, Nov. y^e 17th., 1679, it was agreed and voted for y^e incouragement of Mr Jn^e Younglove ‡ to build him a House, forty foot in length, twenty foot in breadth, and ten foot between Joynts, and to shingle, and clapboard the same: and to set up a stack of chimneys; either of brick or (stone) as shall be judged most easy to accomplish; onely Mr Younglove (giv)ing ten Pound of the three score we engaged for this pres(ent year) and to find all nailles for the shingling, and clapboarding (y^e sa)me.

STEVENS.

May 26, 1690, the town invited Mr. — Stevens* then a resident and schoolmaster at Northampton, "to come and dispense the things of God unto us."

The following record upon a fly-leaf of the "old Book" contains all that is known of this effort to procure a minister. †

At a Legall Town Meeting, May y^e 26, 1690: It was unanimously agreed and voted, by the Inhabitants, in the first place to make their application to Mr. Stevens, now resident and Schoolmaster in Northampton, for to give him an invitation to come and dispence the things of God unto us; and in order thereunto we have chosen a Committee of five men, *viz.*: Serj. Joseph Harmon, Serj. Jn^o Pingilly, David Winchill, Thomas Remmington, Anthony Austin, who are to manage the affaire for the Town, and to doe their utmost endeavour to procure Mr. Stevens, and in case of failour there: then to send or goe to the Bay, and by the advise of Elders there, to procure some able young man that may be likely by the blessing of God upon his indeavours to be a repairer of the breaches that have unliapily been made amongst us, and the reuniting of us again together in peace and love.

BENJAMIN RUGGLES—The Second Minister.

Rev. Benjamin Ruggles was born at Roxbury, Mass., Aug. 11, 1674. Graduated at Harvard College, 1693.

Aug. 1, 1695: At a Town Meeting of this date the following Preamble and votes were passed:

"It having pleased God in his providence to incline the heart of Mr. Benjamin Ruggles to come and give us a visit, soe that we for some sabbaths past have had a tast of his labours, and proof of his abilities and accomplishment for the work of the ministry: to the good liking, satisfaction, and content of us his auditours": Therefore Voted: "To give Mr. Benjamin Ruggles a call to return, and dispence the things of God to us, and that in order to his continuance and settlement amongst us, in due time may it please the Lord to incline his heart to embrace the same."

For his "encouragement" the same salary and settlement were offered, as to the preceding candidates. Mr. Ruggles was then 19 years of age, and his father, John of Roxbury, appears to have conducted the negotiations for his son.

* Perhaps Timothy, son of Timothy of Roxbury, and afterward minister at Glastonbury, Conn. See Sav. Gen.

† Other futile attempts were made, as will be found in the Town Acts. George Philips, Stephen Mix, Nathan^l Clap were called, but declined.

At a Town Meeting, Aug. 23, 1695: "It was then agreed and fully and clearly voted in answer to Mr. Ruggles, his propositions, to concur with him as to the digging of *his son's well*; and alsoe agreed to cut, make and bring him home six load of hay for the space of four years, in which time we hope he may be in a better way to supply himself."

Early in the year 1696, measures were taken to have the chimney built, glass procured, etc., for the finishing the minister's house.

Mr. Ruggles was married Nov. 19, 1696, and the house (which was erected before April, 1697), was so far completed as to be occupied by him about this time. His first child was born before his settlement.

Jan. 12, 1697, the town voted to build Mrs. Ruggles a pew.

May 7, 1697, the inhabitants renewed the call of 1695.

July 22, 1697, "It was agreed and voted to be at the town's cost to send a man downe to the Bay to accompany Mr. Ruggles up," and "Goodman Roe was chosen to attend that service."

Nov. 25. "Every man from sixteen years old and above," was required to spend one day "in getting Mr. Ruggles his wood."

March 1, 1698. The negotiations which had been pending more than two and a half years, now terminated.

A carefully-drawn contract, guarding well the interests of the minister, signed by the selectmen, was placed upon the town-record book.

March 23, 1698. At a town meeting it was voted to invite several ministers to advise "the Reverend Mr. Ruggles, and ourselves, respecting our present circumstances, in order to his settlement amongst us in the work of the ministry, as the law directs."

Accordingly, it was voted to "invite these gentlemen upon the place, on said account, the last *Tuesday of April next ensuing."

The settlement was probably concluded at this time, as the subject is not again alluded to in the town acts.

The title, "Rev.," given to Mr. Ruggles previously, would imply that he had been already ordained to the ministry.

All that is known of his short ministerial life must be inferred from the town records. No church records exist, and nothing is elsewhere to be found from his lips or pen—tradition even being silent.

A new meeting-house, and school-house (the first one) were built soon after his settlement. The town also supported a representative at the General Court; which it had done but once, since it was settled. It is easy to believe, that Mr. Ruggles was prime agent in these progressive movements.

**Family Record.*

Mr. Benjamin Ruggles and Mrs. Mercy Woodbridge were joined in marriage, Nov. y^e 19, 1696:

MR. RUGGLES'S HOMESTEAD.

In a deed † executed at New Haven, Conn., Oct. 7, 1724, Benjamin Ruggles, who gives his residence as now in London, a mariner by occupation, conveyed to Dudley Kent of Suffield, for the consideration of 120 pounds, the homestead, formerly the dwelling-place of his father the Rev. Mr. Benjamin Ruggles, containing by estimation 20 acres; bounded westerly: by the highway or town street, northerly: by the house-lot of William King, easterly: by land of Jonathan Remington, and southerly: by the homestead now in possession of Mr. Atherton Mather. This lot was owned and built upon by the late Henry A. Sikes, Esq., and is now in the possession of Leroy Gillett. It was first the home lot of Peter Roe, and sold by him to the town, for a minister lot, A. D. 1688 or 9.

NATHANIEL CHAUNCEY.

Within three weeks after the death of Mr. Ruggles, the Town voted to make

"application to the Worthy Mr. Chancy of Cookenchao (Durham, Ct.,) to come and dispense the things of God unto us;" and "Deac. Harmon, Serj. Hanchet, Serj. Adams are with all convenient speed to go to the Worthy Mr. Chancy; and do their best endeavour to bring him upon the place in order to his settlement amongst us in the work of the Ministrie."

March 14, 1709: The Town voted "to send down to Mr. Chancy for an answer to what hath been proposed to him."

He declined and was soon after ordained, and settled at Durham, Ct., preaching there more than fifty years.‡

HALE.

March 21st, 1709: "Corporal Jonathan Taylor, and Clerk John Kent, were chosen to go down to Saybrook, to make enquiry concerning the Worthy Mr. Hale, and to seek after a Minister." Mr. Hale was invited to come upon the place "by way of tryall;" but declined.

EBENEZER DEVOTION—The Third Minister.

Aug. 2d, 1709: Mr. Devotion having already "given the Inhabitants a tast of his labours, (&) some proofs of his abillities and accomplishments for the work of the Ministry to their good liking and satisfaction," the Town invited him to "stay with them," with a salary of 80 pounds a year for five years; and 100 pounds a year thereafter, and for a settlement, agreed to give him "150 pound as money, and 60 acres of land."

With this 150 pounds, Samuel Harmon's House Lot was bought, and a Minister's House* was built upon it, and it was given to Mr. Devotion as his settlement.

Oct. 16, 1709: Voted "to send a man down with Mr. Devotion to accompany him in his jorney toward the Bay."

Oct. 31st: Voted "to wait for the Worthy Mr. Devotion untill Spring, according to the advice of the neighboring Ministers."

Feb. 16, 1710: The Town "by a full and clear vote: gave the Worthy Mr. Ebenezer Devotion a further call, in order to his taking office upon him."

May 10th, 1710: "Upon the proposall of Mr. Devotion: the town ingage to get him 30 cord of wood yearly." Also "It was voted to procure a drum to beat upon, on the sabbath, for calling the assembly seasonably together;" and if it should please God in his providence to make way for the ordination of the Worthy Mr. Ebenezer Devotion; that they will be at the necessary charges thereof." It was also stipulated that "Veall shall not be accounted as a specia, in any payment to Mr. Devotion."

He was ordained June 28, 1710. He married his first wife Oct. 4th, 1710, and the Town voted "by a clear vote to allow John Rising 3 shillings p^r day for himself, and his horse for y^e nine daies he was out, when he went to y^e Bay with Mr. Devotion, the when he went to be married."

His pastorate was a successful one, of more than 30 years duration, terminated by his death. Extensive revivals prevailed throughout New England in the latter part of his ministry, and 327 members were

added to his church in 7 years. One of the results of this increase was the formation of the West Precinct in 1740, and the 2d Congregational Church Nov. 10, 1743.

The Rev^d Ebenezer Devotion* was born at Brookline, Mass., and was the son of John, and grandson of Edward of Roxbury, † graduated at Harvard College in 1707, and died April 11, 1741, in the 31st year of his ministry, at the age of 57.

His father, John, removed to Suffield, and his will of Oct., 1732, probated in February following, showed a good estate. The History of Windham Co. ‡ says, that John Devotion, with others § from Suffield, formed a company in 1726, for manufacturing iron, and bought two acres of land on the northeast side of the Willimantic River, including the privilege now owned by the Willimantic Linen Co., and built the first dam there in 1727.

EBENEZER GAY—The Fourth Minister.

Ebenezer Gay, D. D., was the son of Lusher and Mary Gay; grandson of Nathaniel; great-grandson of John, of Watertown. He was born at Dedham, May 4th, 1718. Graduated at Harvard College, 1737; preached his first sermon at Suffield, Aug. 9th, 1741; and was ordained to the ministry there, January 13, 1742. He was acting pastor for more than fifty years. His son, Ebenezer, Jr., was appointed his assistant, March 6th, 1793, and his active labors closed. He died March 7th, 1796, in the 55th year of his ministry, and the 78th year of his age. His widow "Mary" died Oct. —, 1796.¶

¶ Extract from Rev. Joseph Lathrop's funeral discourse, delivered at the interment of Mrs. Mary Gay, October 25, 1796:

"Mrs. Gay was not only respectable for her parentage, natural abilities and acquired accomplishments, but highly esteemed among all her acquaintances for her Christian spirit and deportment; her easy, and agreeable sociability; her hospitality to strangers, and courtesy to friends; her eminent prudence in the public situation, and connection assigned her by providence; her fidelity and tenderness in the domestic relations; and her solicitude to render all happy who were placed under the inspection of her eyes, or stood within reach of her arms.

"A great blessing has she been, not only in her family, but in this Society. By her discreet and exemplary conversation, she has contributed, in her place, to her consort's ministry, and to peace and good order among the people of his charge; and for them she has trained up a son to succeed in the father's place, that the congregation of the Lord be not as sheep which have no shepherd."

Family Record.

Ebenezer Gay and Mrs. Hannah Angier of Cambridge were joined in marriage July y^e 1742. She died April 20, 1763; no children recorded. He married 2^d wife, Mary Cnshing, of Scituate; a daughter of Judge Cushing, Nov. 10, 1763. Their children were:

Mary, b. Sept. 23d, 1764.

Ebenezer, b. Mar. 10, 1766, lived & died at Suff. leaving no male heirs.

William, b. Oct. 16, 1767, " " " " " " " "

John Luther, b. Mar. 18, 1770, died Mar. 13, 1771.

"Doctor Gay* was so extensively known, and where he was known, so universally esteemed, that a full portrait of his character is unnecessary. He was a man of strong mind, and superior learning, of a clear and discerning intellect; a cool and penetrating judgment, unshaken fortitude, and inflexible integrity."

"In conversation he was pleasant, and intructive, and sometimes agreeably facetious, and innocently humorous. He was easy of access, given to hospitality, faithful in his friendships, free from dissimulation, tender in domestic relations; a most obliging neighbor, and a lover of mankind."

"He was an able and learned divine—a scribe well instructed into the kingdom of God."

"He was a wise and judicious counsellor, and an entertaining, and instructive preacher. His public discourses were composed with attention, and enriched with sentiment. His style was neat, pure, and elegant, yet easy, and familiar; and while it descended to the lowest capacity, it was suited to the most refined taste."

"He was steady in his principles; but despising bigotry, he ever manifested an amiable liberality of spirit. He never was severe to censure, or forward to condemn those of different sentiments; but disposed to think candidly, and hope charitably of all, who appeared to possess the Christian temper."

"As prudence marked, so peace attended his steps through the whole course of his ministry, and the harmony with which it commenced has been continued to the close."

"In a word, he passed through life with a character pure and unstained, and finished his course with the serenity of Christian hope." "In the latter part of his life he suffered much from bodily disorders, which often confined him for weeks together. But before he was wholly disabled from the labors of the ministry, he was happy to see his people disposed to provide him an assistant, and united in the choice of his son to serve with him in the gospel."

"After this transaction he, under increasing infirmities, protracted his life three years, and then closed this mortal scene."

COLONY AND TOWN LINES. †

When the Connecticut Valley was settled, both Massachusetts and Connecticut claimed jurisdiction over Waranocoe (now Westfield), which was then a place of great importance, for its beaver trade with the Indians.

* From Rev. Joseph Lathrop's funeral discourse.

† (See page 10. Additional and correctional.)

In 1640, Connecticut granted to its governor the exclusive right of this trade there, for seven years, and the right to purchase lands for that Commonwealth.

This right was disputed by the Massachusetts government, and it employed two artists (Woodward and Saffery), in 1642, to run the colony line. They decided that the line was south from Waranocoe; and it was taken under Massachusetts jurisdiction, by a special act, in 1648. Connecticut acquiesced. The same year,* the Massachusetts General Court extended Springfield's area on the east side of the river south, to a point twenty poles below the warehouse, which they had built there.

Bliss' History of Springfield † says :

"The warehouse was at Warehouse Point, at a house occupied by John Bissell, nearly in the north line of Windsor. It was meant to include all the land within the colony, according to the measuring of Woodward and Saffery."

The grant for a new town (Suffield) out of Springfield's domain, in 1670, revived the boundary question, that had slumbered since the matter of jurisdiction over Waranocoe had been decided.

The Springfield settlers must have believed that the colony line was near the foot of the falls, as no grant was asked for, or made below them, either east or west of the river.

"Kittle Brooke" ‡ had been Windsor's north bound from 1636, to May 1671, when it was extended north two miles by the Connecticut General Court. This new boundary line § was defined as "beginning at the mouth of Kettle Brook, (commonly called Stony Brook,) against an island in the river, running west five miles into the wilderness." This extension overlapped the Suffield grant, and transformed Kettle Brook into Stony Brook, a name never before or since given it.

In a similar spirit, Massachusetts claimed that the "line had been already run and settled many years since." It ordered, that this line be extended twenty miles westward from the river. It was run twelve miles only; and nothing further is recorded of this line of 1642 (soon after conceded to be erroneous) but the following order, and report from Major Pyncheon, which prove that the Woodward & Saffery line was about three miles below the Falls, instead of at Warehouse Point.

In pursuance* of the order of the Honored General Court May 31, 1671, for the runing the south line of our Patent further west from Connecticut Ryver; I went from Springfield to Windsor the 31st day of October 1671, having Mr. James Taylor with me for the artist; besides the rest of the Company w^{ch} I had got ready the day before.

We came to the house of John Bissall against the old Ferry place, in Connecticut Ryver; at, or about the higher end of Windsor toune: where Nathaniel Woodward & Solomon Saffery the former artists left off: and there wee begunn, w^{ch} was about halfe a mile from the Ryver, & upon the rising of the hill over the way, on the west side of John Bissalls house.

Wee set our compasse, & then measured directly west one mile, & at the miles end, marked a red oake tree; east & west wth the surveyors mark O ^M₁₆₇₁ & ^M_{JP}:

Past on: went over a fence; came to the Ryveret, viz^t: Windsor Riveret; ran through a little meadow, marked severall trees in the range before & some at the meadow & one where a brooke runs into the Riveret; and another tree by the Riverets side; and then on the other side that River. Past on from the first mile tree, marked as above; one mile more when for our second mile tree; wee marked a great white oake in the lyne ^M_{JP} M. 2, for 2 miles.

Past on still marking severall trees in the lyne, & set on O, the surveyors marke, & at one mile further, came to a pine tree in the line; marked it as before ^M₁₆₇₁ M 3: ^M_{JP}

Went on; marking severall trees in the line wth the surveyors mark O, east & west; came to a pond which the line crossed being fuetty rod over, & going on further for one mile more, came to a great pine tree w^{ch} stood neere a rod & a halfe out of the line, & therefore marked it, neere the foote of it & on the north side of it ^M₁₆₇₁ M 4. ^M_{JP}

Passed on, marking severall trees in the line wth O; came to a small white oake by a little swampe or brooke, being one mile further, & marked it as before, on the north side, it being halfe a rod to the south of the line ^M₁₆₇₁ M. 5. ^M_{JP}

Passed on west, marking severall trees in the range, came to the east side of a hill, one mile further, & there, upon the assent of the hill, marked a small red oake in the line ^M₁₆₇₁ M. 6. ^M_{JP}

Passed on over the hills marking severall trees in the line & on the west side of the mounteyne, being another mile, marked a black oake in the line ^M₁₆₇₁ M. 7. ^M_{JP}

Passed on doune the hill, marking severall trees in the line; mett again wth the ryver, Viz^t: Windsor Riveret, having gon halfe a mile from the former mile tree. Passed over the river halfe a mile further, river and all, crossing

Past on, marking severall trees in the line wth the surveyors marke & one mile further came to a pine tree in the line; marked it ^M 1671 JP M. 9.

Going on still west, marking trees as the line as before, came one mile further, to a black oake, and marked it as before, for tenn miles ^M 1671 JP M. 10.

Passed on, marking trees, and over a little swampe, and at the head of a spruce swampe, being one mile further, marked a red oake as before ^M 1671 JP M. 11 mile.

Passed on over a swampy marsh; came to a great mounteyne; went up the mounteyne about a mile, rayased a heap of stones there; called it Walnut Tree Mountayne, and then marked a forked leaning red oake tree, which we marked on the north side of that forke w^{ch} goes to the north, ^M JP & the east side of this North forke we marked ^M 1671, M, 12. Here wee ended our worke on the 3^d of November, 1671, night coming on, and nothing appearing further westward but mountainous land as farr as could be seene.

LINE OF 1713.

The Return* of the Riding Commission of the continuation of the partition line, West of the Connecticut river: Viz:

We the Subscribers: herunto being appointed Commisioner's by the respective Governments: That is to say, Samuel Partridge, John Pynchon, and William Dudley, Esq; on the part of the province of Massachusetts Bay: And William Pitkin, & William Whiting Esq, on the part of the Colony of Connecticut: for running, and stating the line, between the said Governments pursuant to an agreement, made the thirteenth of July, 1713, by commissioners appointed by said Governments, for that end. We met at Suffield, the twenty fifth of May 1714. From thence, we proceeded to the line, between the said Governments, which we brought up to Connecticut River, in October last; & found the said line, to run ninety Rods, to the northward, of the North East corner, of Suffield Bounds, at the River. From thence: we continued the line west, nine degrees north, three miles, & Sixty four Rods; at which place, the line intersected the north bounds of Suffield. From thence, continuing the line, until it intersected the East Bounds of Westfield: falling eight rods South, of a white Oak Tree, which is the corner, between Springfield, & Suffield being five miles from the great River. We continued the line, to the west bounds of Westfield; being four miles, & thirty eight rods, where we made a heap of stones, about a large stake, westward of a brushy Hill, and eastward of a small swamp, about ten feet south of a white Oak Tree. Upon the north side of said tree, we made those letters, ^P on the south side CC: on the east side, SP: JP: WD: and on the west side, W²: WW; from thence, we continued the line, about a mile & a half, to the begining of the mountain where we made a heap of stones, on the

top of a brushy Hill; about twelve rods, east of a little swamp; and from the first mentioned heap of stones, we run a line south, nearest twenty eight degrees west; two miles & an half, & about forty rods; where we made a heap of stones, round a white Oak, being the south west corner of Westfield; on the east side of a small run of water, & the west side of a little plain, & is four miles west by the needle, from the south east corner of said Town. From thence; we proceeded to the south Bounds of Symsbury; measured ten miles north, & find the bounds of that Town, do not exceed ten miles, from south to north. We made a large heap of stones, at the north east corner of said Town of Symsbury;* as formerly granted, and settled by the Colony of Connecticut. In which heap, there is one great stone, raised on End, & marked, M^p. on the north side, & C. on the south side thereof. From thence: we proceeded to the place, where the line run by Mess Partridge, Parsons, & Porter, intersects Symsbury, east bounds, & measured two hundred, & sixteen rods northward, in said bounds; and made a heap of stones, in a swamp, about a small Dogwood Tree, for the corner bounds, between Windsor, & Suffield, twelve, or fourteen feet northward of a Button wood tree; & then went to the top of the mountains, or Turkey Hills; there made a heap of stones in the north bounds of Simsbury, about a mile, and a half from their northeast corner. Then: went to the north end of Montgomery, or Manatuck; where we set a large stake, in a meadow, for the west, or northwest corner of Suffield; near a brook, in the line run for the south Bounds of Westfield; being two miles, & twelve rods, from the southeast corner of said Town. From thence: runs south by west, over said mountain, four hundred, & twelve rods, into the north bounds of Simsbury; where, we made a heap of stones, at the south end of said mountain, almost at the foot thereof; for a west, or southwest corner of Suffield. all which lines corners & boundaries are set fourth, & described in the plat made by us: Mr. Nathaniel Burnham, & Mr. John Chandler, surveyors on the other side thereof: We also find the land lying to the south of the line, between the two Governments, in the town of Springfield; to be two hundred, & eighty seven acres. And the whole Town of Suffield, as now bounded, is twenty two thousand, one hundred & seventy two acres; being eight hundred & sixty eight acres, less than their Grant of six miles square.—And in the Town of Westfield; Five thousand, five hundred, & forty nine acres. In the whole Twenty eight thousand & eight acres: For which so much is to be allowed by the province of the Massachusetts; to the colony of Connecticut.

BOUNDARY LINES.

SOME FACTS ABOUT THE ADJUSTMENT OF LINES BETWEEN MASSACHUSETTS AND CONNECTICUT.

To the Editor of the Courant :

The question is often asked, Why the unsightly notch in the state line at Suffield and Granby is found upon the map? And why a tract of more than two miles square, embracing a large part of the now popular "Southwick lakes," and apparently within Connecticut boundaries, should belong to Massachusetts?

The history of this boundary line extends through a period of nearly 170 years, ending with the adjustment of 1803. For many years after the settlement of the Connecticut valley, the boundary line between the Massachusetts and Connecticut colonies was supposed to be several miles south from the present state line; and Westfield and Suffield both, incorporated and settled by the Massachusetts colony, were supposed to be within its borders, as well as Enfield and Woodstock, east of the river.

Soon after the settlement of Suffield (A. D. 1670), disputes arose about boundary lines between the border towns; and it was ascertained that the true colonial line, instead of being south of Suffield, was north of it. The history of negotiations between the colonies, and of the quarrels between the towns, for many years, would fill a volume. The materials for such a history are abundant in the printed and manuscript records of both colonies.

In 1713, a joint commission was appointed to adjust colonial and town lines. This adjustment, made without the consent of the inhabitants, asserted that all territory south of the true colony line, which had been settled by the Massachusetts government, should abide under its jurisdiction. Connecticut was to have other lands as an equivalent therefor. The commissioners reported that "south of the line between the two governments, in the town of Springfield (now Agawam), there was 287 acres; and in the whole town of Suffield 22,172 acres; and in the town of Westfield, 5,549 acres; in the whole west of the Connecticut river, 28,008 acres; for which so much is to be *allowed* by the province of the Massachusetts to the colony of Connecticut."

The allowance was an equal amount of wild land among the mountains in the eastern part of Hampshire county, mostly within the present towns of Pelham, Belchertown, and Ware. This land was sold by auction, at Hartford, in 1716, for the munificent sum of 2 cents 1½ mills per acre; or the whole for the sum of 683 pounds, 500 of which was given to Yale college.

By this adjustment of the colony line, all of Westfield, all of Suffield, Enfield, and Woodstock were retained by Massachusetts. This was a matter of great grievance to the inhabitants of those towns from that time until they were permitted to enjoy the "Charter Rights" of the Connecticut colony, within whose boundaries they were.

They remained tributary to Massachusetts until 1749, when, upon their petition for the liberties and privileges of the Connecticut colony and charter, they were admitted thereto.

That part of Westfield south of the line had no inhabitants, and consequently remained under Massachusetts jurisdiction, no one dissenting. It extended south of the line more than two miles, and laterally to the width of the town, or about four miles, with the ponds dividing it near the middle, from north to south.

November 7th, 1770, Southwick was incorporated; and this tract was embraced within that township, entire, until 1803, when, by the adjustment of the present state line, that part of it, easterly from the "ponds," extending to the top of the mountain (Westfield's ancient east boundary), was restored to Connecticut. This embraced less than one-half the "Notch," and has since been a part of Suffield. It is understood that the inhabitants living easterly from the "ponds" desired to be annexed to Connecticut, for the greater convenience of transacting town business, etc., while those living westerly, for similar reasons, desired to remain under Massachusetts jurisdiction; and the wishes of both were respected. Whenever the west-side inhabitants desire to live under the flag of the state to which their territory geographically and properly belongs, they will probably be assisted and permitted to do so.

The tract, or "Notch," as it now remains, is situated in the southwest corner of Southwick, Mass., and contains nearly 3,000 acres, about 500 acres of it water, which composes, perhaps, five-sixths of the Southwick, or Congamond lakes, than which there are few finer in New England. It is bounded north on the true or Colony line of 1713-14, 2 miles and 10 rods; easterly on Suffield, beginning 99 rods below the South Pond, and by the east shore of the ponds, to the state line, and of course very irregular; south, partly on Suffield 135 rods and 11 links, and partly on Granby 697 rods and 11 links; west on Granby, $2\frac{1}{2}$ miles, 51 rods, and 9 links.

Westfield and Simsbury both were incorporated before Suffield, and were permitted to retain their original boundaries in the settlement of 1713, while Suffield was obliged to accept what remained between the two. This was a strip of land bounded west on Simsbury (now Granby), 412 rods in width at the west end, extending east to the top of the mountain 2 miles and 12 rods. This gave Suffield's western extremity a more attenuated appearance upon the map before 1803, than at present.

It may be of interest to some Suffield people to know that the true line between it and Agawam is 90 rods northerly from the present bound-stone at the river; thence it runs west, 9 degrees north, to the south bound-stone at Rising's Notch, which stone is 8 rods south from Suffield's ancient northwest, and Springfield's ancient southeast corner bound. As before stated, the ancient north boundary line of Suffield was retained, and Connecticut received compensation for 287 acres now in Agawam. The south bound-stone, at Rising's Notch, being in the true line, by the survey of 1713-14, was fixed upon as a place of departure westward, in establishing the state line in 1803. This may answer a question often asked, why there are two bound-stones, 8 rods apart, in the state line at Rising's Notch.

Most of the ancient towns in Connecticut have been carved up, to form ambitious new towns and boroughs; yet Suffield retains its ancient territory, as fixed by the first judicial settlement, and has been enlarged by the addition of about 2,500 acres, lying between the top of the mountain and the lakes, as before described.

* The original grant of 1670 was six miles square. The act of 1674, establishing boundaries, extended the south line $7\frac{1}{2}$ miles due west from the bounds at the Great River. The south line had been run six miles to the foot of the mountain, and bounds set in 1672. (See p. 59.) By this report of 1683, the former line was perambulated and extended $1\frac{1}{2}$ miles further west. The precise location of this line and its terminus west of the mountain cannot be determined. At the River—it must have been near the present ferry—passing near East Granby Center, thence west to "Pickerele Cove," which was probably some point on Salmon Brook. "Kittle Brook," by act of the Conn. Court, in 1636, was the north bound of Windsor until 1671, when it was extended two miles further. This extension covered a portion of the Suffield grant. In 1710 the Conn. Court stated the north bound of Windsor "to be a line beginning at the mouth of Stony Brook, running west by the needle five miles, into the wilderness." This line was run and ditches made every eighty rods throughout the line.

† A portion of this land upon the river bank has been taken by individuals without right.

‡ Of Newberry, Mass. From him "Rawlins Brook" derived its name. He bought land there, abandoned it in King Philips War, and never returned.

It was agreed, and voted: y^e Jonathan Winchill's small Lot on y^e west side of High Street should run back to Muddy Brooke its full breadth as it was first stated by y^e Committee, the *bridge being now removed higher w^{ch} occasioned y^e taking off a little corner at y^e foot of y^e bridge, for y^e accommodating of y^e same upon w^{ch} condition y^e said Winchell doth lay downe to y^e highway againe y^e halfe rod w^{ch} y^e committee tooke out of y^e highway & added to y^e side of his lot as a compensation for what they tooke from his lot at y^e foote of y^e bridge.

It was agreed, and by a full and cleare vote determined, & concluded y^t y^e old way or roade to and from Sprinkfield, through Highe street, should run where it alwaies bath, & now doth run, it being judged of all hands to be y^e most feezable & far less charge for y^e Towne to maintaine.

It was agreed, and voted y^t every man shall have a convenient way to his Land & y^t no after grant shall hinder any man of y^e priviledge.

By a full and clear vote Thomas Taylor was admitted as an Inhabitant into y^e Towne.

Agreed and voted to give Mr. †Tilton an invitation into Towne.

Agreed & Voted y^t Jn^o Barker sen^r should have y^e lot y^t was formerly granted to Luke Hitchcocke for his sonns.

It was yⁿ agreed & voted to receive Quinton Stockwell as an Inhabitant into the Towne, and accordingly was granted to him an alotment of forty acres for his settlement. This act through some neglect of y^e Select Men mist its entry in the due place, but yet is a true act of the Towne.

At a Legall Meeting of y^e Inhabitants of Suffield April y^e 10th 1684. 1st. It was agreed, and Voted: for y^e future to make, and confirme those acts of the Committe, ‡Page the 3^d, in refference to the manner of defraying the public charges, and time how long men shall settle upon their Land, before they shall have any powre to sell, allianate, or dispose thereof; and this act to continue, and stand in full force untill the Towne shall see cause to pass an act to the contrary.

2^d. It was agreed, & voted to fence in y^e burying place this yeare; and that the charges about it shall be defrayed out of the "purchase money," §which is due to the Towne.

3^d. It was agreed & voted that Good^m Roe, Serj^t Harmon & Jonathan Winchell should settle y^e bounds of y^e burying place, and allsoe the front range of y^e lots from David Winchils to y^e burying place.

† Hon. Peter Tilton settled in Hadley.

‡ Sections 4 and 9, pp. 54, 55.

§ This "purchase money," was due from settlers, for lands; the overplus after Maj. Pynchon had received his pay, went into the Town Treasury to pay Town charges. See p. 25.

5^{thly}. It was agreed, & voted that Serj^t Joseph Harmon, & Nathaniel his brother, should take in some Land, on the north side of their lot; for convenience of running their fence strait, provided: they lay downe as much Land on the east end of their lot, in lieu of what they take up (on y^e north side of their lot) & if there be enough there y^t is at the east end, if not, yⁿ on y^e west end of their other lot, opposite against it.

6^{thly}. It was agreed, & voted y^t Serj^t Joseph Harmon, & Jonathⁿ Winchill, should be in a readiness to run y^e Line betwixt Westfield, and us, upon warning given by Westfield; they being chosen by y^e Towns for that service.

7^{thly}. It was agreed, & voted to ratify to Good^m Copley y^e sale of John Millingtons Land y^s s^d Copley defraying all débts and dues, due from the said Millington to the Towne.

8^{thly}. It was agreed, & voted, that y^e Select Men should settle a way of twenty rod wide between* Swampfield, & feather street lots, and that y^e remainder of y^t land which is not allready layed out shall be for a perpetual common never to be lotted out to any man.

9^{thly}. The Towne taking into consideration y^e troubles y^t arise by reason of persons taking up Land without order from y^e Select men; for y^e prevention whereof for y^e future; it is agreed, & voted, That no person whatsoever y^t hath Land to take up, shall have any Land measured out to them, except they first get an order under the hands of y^e Select men; to y^e Measurer, signifying their approbation of it; & what Land shall be layed out contrary to this order, shall become void and of none effect.

According to y^e act of y^e Towne, page y^e 85th; The Select men met together, April y^e 14th '84, & settled y^e highway from High street to Springfield bounds,† in manner as followeth: between Obadiah Millers home Lot, and Thomas Coopers home Lot, layed y^e way 12 rod wide, and yⁿ we came to 8 rod wide, and soe holding y^t bredth all y^e way through y^e lot with trees marked facing to y^e highway until we come at Towseleys tree, & yⁿ we marked out y^e west side of y^e highway, as farr as James Stevenson's home-lot, which is to bear its bredth to Sprinkfield bounds, where it may be most convenient.

At a generall Towne meeting, March y^e 3^d 168⁸¹/₂ for the choice of needfull officers to order matters of a Generall concernment, for the welfare of this place; accordingly, choice was made, and the persons chosen who are y^e Select-men, constables, & other officers for this present yeare; are as followeth:

It was agreed, & voted to give to Richard Woollworth about a quarter of an acre of land for his convenience of building ; in y^e place where his house now stands.

They were to "inspect all licensed houses of entertainment and to inform of all disorders, or misdemeanors committed in them, to present, and inform of all idle, & disorderly persons, prophane swearers, or cursers: sabbath breakers, and the like offenders." They were called informers; and were much revered by the law abiding, and much feared by the transgressor. Their insignia of office was "a black staff two feet long, tip't at one end, with brass about three inches; as a badge of their office, to be provided by the select men at the charge of the Town."

†The inhabitants petitioned the General Court for relief; being poor and importunate received the following answer:

In ans^r to the petitions of Springfield & Suffield, being much of one tenno^r, the Court having read & considered the contents thereof doe judge that sundry expressions therein doe deserve sharp reproofe; neverthesse; considering the difficulty of procuring money in those places, doe order that the inhabitants of the said townes of Springfield & Suffield, shall not be compelled to pay money, provided that, in lieu of their proportions to money rates, they doe pay their rates in good merchantable corne, at one third part lesse price than is set in the country rate, and deliver the same to the Treasurer, at Boston at their owne charge; casualties of the seas excepted; and this order to continew untill the Generall Court take further order herein. Jacob Adams proposes to the Towne for the exchange of y^t part of y^e lot y^t was Simon Gowins, which lyes between y^e rear, and y^e highway.

At a legall meeting of y^e Inhabitants of Suffield April y^e 18th, 1690: It was proposed th^t, and by a clear vote carried, to petition to this Co^r^{te} to be holden at Northampton y^e 23^d of this instant; against * Mr. John Youngloves preaching any longer amongst us.

Agreed, and voted: y^t y^e order of y^e Towne respecting hoggs going free in y^e commons, without yoakes, and rings; shall be, and is now repealed and y^e Lawes of y^e common-wealth to be executed.

April y^e 23^d, 1690: There being great damage sustained within this Towne by swine; not only in cornfields, meadows, and pastures; but alsoe in the commons:—For the prevention whereof, it is therefore ordered: that after the publication hereof, that all swine going upon the commons, shall be sufficiently yoaked, and ring'd from the twentieth of March, to the twentieth of October; and for the prevention of Damage being done, by Swines rooting in meddows, and pastures, both before fences are made up, and fields enclosed: and after y^e fields are broken, it is ordered that all swine going at liberty shall be sufficiently ring'd the yeare round;—and if notwithstanding this order, any man shall presume to let his swine goe on the commons without yoakes, and rings; it shall be lawfull for any man to impound all such swine, provided: that no man shall impound them any where but in the common pound erected by y^e Towne for y^t end. And the owners of such swine shall upon demand or otherwise as they shall agree; pay to the person that impounds them 4^d per head for all such swine, as often as they are impounded, and in case of refusall, by Warrant from the Select-men to y^e Constable; all such forfeitures shall be taken by distress; and delivered to the person that impounded the Swine. And if any man taking Swine doing him damage in his Cornfields, meadows, pastures, being sufficiently yoakt and ring'd according to this order, and shall either by dogging y^m, or any other cruell usage, maim, or kill their neighbors swine, they

* See pp. 16, 84.

shall not only loose all their owne damage; but pay double to the owner, for all such damage done them in their swine.

And further considering that this order being duly executed, though it may be a good expedient for the prevention of Damage done by Swine; yet without some further prudent care be taken, it is not likely, some man being soe exceeding remiss, and careless about their fences; that the end aimed at will be thereby attained. It is therefore ordered: that all cornfields, pastures, & inclosiers, shall be inclosed with a sufficient five raile fence, or that which is equivalent thereunto, and shall be soe judged by the fence viewers, and that all fences, where damage may be sustained in corn, or mowing ground, by cattels treading, or feeding, shall yearly be set up, and sufficiently repaired against y^e greater cattell by y^e 10th of March; and against lesser cattell, and Swine by the tenth of Aprill; and that the fence viewers chosen by the Town for that Service, shall yearly; within two daies after the Severall times prefixt; (especially if complaint be made to them) take a view of the fences; and where they find any defective fence for y^e first time only; to give notice to the owner, or owners of such defective fence; setting y^m a time for the reparation thereof, signifying to them withall, that if it be not done within, or at y^e time set; they must expect y^e severity of y^e order following:

It is alsoe ordered that y^e fine to be layed upon y^e delinquent for defective fence, shall be four pence per length, or six pence per rod, which after y^e first time y^e overseers shall exact of y^e delinquent, and keepe a true account of; and once in y^e yeare return it to y^e Selectmen, y^e number of lengths, or rods together; with y^e names of ye delinquents, who shall issue their warrant to y^e Constable, to gather such fines; the one half whereof, shall be the fee of the fence viewers; y^e other half for y^e Townes use; and if after due notice given by y^e fence viewers, any man shall refuse, or neglect to repaire his fence: when y^e fence viewers shall themselves, or by hiring men, repaire such fence; and y^e owner of y^e fence, shall pay y^m double for their paines.

Whereas:* there has been great disorder in our Towne by reason of men's unseasonable comming to, or wholly absenting themselves from Towne meetings; whereby much precious time hath been spent unprofitably; many uncomfortable Debates have been occasioned; for the prevention whereof for the future: it is therefore ordered: that when any Towne Meeting is orderly warned, that is the persons spoke to, or order left at the house where they dwell, by the Select-Men, or any other man; That the Town shall hereafter appoint for that worke; or any neighbour which either he, or they shall desire to do that kindness for y^m. If any person soe warned shall come unseasonably to, or wholly absent himselfe from such meetings; he shall pay for unseasonable appearance, Six pence; for being wholly absent, half a Crowne: except some extraordinary business, or eminent Providence put in a barr; and that it shall be allwaies in the power of the Select-Men, either to mittigate, or wholly to relinquishe this fine, if they shall see just ground soe to doe. And all such fines from time to time, and at all times, to be added to y^e delinquents Town rate in y^e yeare in which they commit their trespass.

It is ordered that where sundry persons shall agree to ly in a common field together, and cattel, or swine shall be taken doing damage in s^d field, by reason of defective fence; the owner, or owners of such fence, being legally convicted thereof, shall pay all Damages.

* Reaffirmed in a town meeting Dec. 16, 1700.

It was agreed, and voted ; y^e the Severall Summes which were given, and annexed to men's names being deducted out of the bill of Towne Charges : that it shall be a finall issue of all debates about the ministers † house, and for the future, Lovingly, and Joyntly to carry on that worke ; and that all charges which is the Townes duty to defray, in, and about the same ; shall be defrayed by way of Rate upon the whole Towne ; all other votes to y^e Contrary Notwithstanding.

To give him for his Salary sixty pounds per Annum, one quarter part in Currant Silver money, the other three quarters in provision pay, all good and merchantable, and at price currant amongst us: and to finde him his fier-wood yearly, or otherwise if it seem good to Mr. Ruggles, and it be more pleasing, and satisfactory to him, to make his salary seventy pounds per Annum, and to pay it all in provision in manner as before exprest, and allsoe to finde his fier-wood yearly. Thus for the present, and as it shall please god to increase our Number, and Bless us in our Estates, and Mr. Ruggles, his need requires; to add to his Salary, Soe that he may not onely have a comfortable, but an honourable maintenance amongst us.

At a Legall meeting of the Inhabitants July y^e 22d, 1697: It was agreed, and voted: to be at cost to send a man downe to the Bay, to accompany Mr. Ruggles up; and accordingly: Goodman Roe was chosen to attend that service.

At a Leagall Towne meeting November y^e 29th, 1697: It was agreed, and voted: that every man from sixteen years old, and above, doe spend one day for the getting Mr. Ruggles his wood, and every man to come according to his capacity: that is to say: every man that hath a team, to come with his teame; and they that have noe team, to come with their axes, and to attend the warning of the men chosen to oversee the worke; which are, Serj. Harmon, Serj. Winchill, Jonathan Taylor, John Remmington, and J^{no} Mighel Jun^r; who are chosen to oversee the worke, and to return to the †Townsemen, who are Delinquent; and the Townsemen are to put the men that don't work their day, their proportion, into the towne rate.

2^{dly}. It was agreed, and voted: to pay those men y^t have wrought about clearing y^e Minister's meadow, or swamp for meadow; (before any act was past by the towne in w^t way to do it) in equall proportion; according to w^t they have done. It was allsoe left with y^e townsmen; to determine y^e wages of every man y^t hath wrought at this worke; whether his time were spent in travell, or labour; that soe there may be noe wrong to any man, or just ground of cavill.

3^{dly}. Agreed, and voted: to clear five acres for the minister in that swamp where they have begun; soe as it may be mowable, or capable of mowing; but it is not hereby to be understood, or to be expected y^t we doe engage to take up every stump, or clear of every old tree; but the bulk, or body of y^m; soe y^t a sithe may comfortably pass; under the hand of a carefull workman.

The men chosen for this Committee, and have accepted thereof, are Jacob Adams, Serg^t Winchill, Serg^t Huxley, J^{no} Mighel sen^r.

5^{thly}. At this meeting Good^m †Hamlin proposed to the towne for a grant of some land, what quantity the towne will be pleased to bestow on him.

*It was a common practice throughout New England, to appoint a day to get the year's supply of wood for the Minister.

“Judd” says the minister furnished the flip, and other drink, but not the food. These were jovial occasions for men, young and old, here and in other Towns. Amherst, Northampton, and Wethersfield gave their ministers 80 loads of wood yearly. Suffield probably gave as much at this period, as it was cut in the common.

MR. BENJAMIN RUGGLES'S SETTLEMENT.

At this genneral Towne meeting March y^e 1st, 169 $\frac{7}{8}$ the Reverend Mr. Benjamin Ruggles having drawn up in writing, some proposals or tearms to offer to the Towne in order to his settlement; and being by him read to the Towne, after some debate were Granted him by a clear vote; which proposals, or terms are these following.

1st. †That the towne finde me my fire wood dureing my life.

2^{ndly}. Y^t the house in which I now live, be given to me; and my heirs forever, as our proper right, and inheritance; upon my spending my daies amongst you; which house, is to be well finished by y^e Towne, at, or before y^e first day of September next ensuing, 1698.

* Son of Lancelot Granger.

† Fire Wood was usually a part of the minister's settlement throughout New England.

The quantity is not stated. In 1706, 7, & 8, he had sixty cords a year. Mr. Devotion, his successor, had thirty cords a year. The Rev^d John Graham, in the West society had from thirty-six to forty cords yearly. Hatfield, Hadley, and some other towns gave fifty cords yearly.

It was burned four feet long in the spacious open fire-places, and only the best of oak, walnut, or maple was good enough for the minister. Wood was the only fuel used here for more than 170 years, and the quantity consumed was enormous. In 1739 the Town had 200 families, by a moderate estimate, using 6,000 cords yearly. In 1775 there were more than 300 families, and in 1850 about 600 families.

To this add the timber used for fencing, building, and shipping; and the little care taken to propagate forest trees, and it is no wonder, that the once most densely wooded town in the valley is nearly denuded.

Coal was seldom seen in the farm house here 25 years ago. Now its cheapness and convenience make it the principal fuel for all.

3^{dly}. *That* one hundred acres of land be given to me, and my heirs forever; upon the forementioned consideration, of my spending my daies amongst you: twenty acres upon which the house stands, being the *home lot of this grant: eight acres of which twenty, are to be fenced by y^e Towne front, and rear; and its proportion on the sides against my Neighbours, with a good fence against orderly creatures: and y^e other fourteen acres appertaining to this Grant be lay'd out to me this spring.

4^{thly}. *That* the Towne clear me five acres of meddow, well, and carefully; and fence it for me with such a fence, as will keep y^e grass from damage; and allsoe the Towne grant me liberty to take up other five acres of Meddow; or y^t which may make meddow. And these five acres which y^e towne are to clear; are to be cleared by y^e first day of Aprill, Anno Dominy 1700. And till then, the Town to find me with Hay, according to their former agreement, six load each year.

5^{thly}. *That* the towne build me a barn; I finding nails, of these Demensions: thirty foot long; twenty foot wide; twelve foot stud; and soe proportionably; to finish it with great doors, and a good threshing floor; which barn is to be built, and finished at, on, or before the first day of May, Anno: Dom: 1699.

Six^{thly}. As for my sallary, this next year, beginning on the first day of June next, it is to be fifteen pounds in money; and forty five in provision pay; and as for y^e next three yeares after that; fourscore pounds per year; to be paid after this manner; fifteen pounds in money, and forty-five in provision pay; and the other twenty pounds, in worke at halfe a crown a day, six months in the year, viz: March, Aprill, May, September, October, November. At three shillings per day, for June, July, August, : and two shillings per day, for December, January, February; And then from y^e first of June 1702, it is as a stated sallary, to be eighty pounds yearly; pay^d after this manner: twenty pounds in money; and sixty pounds in provision pay: all good, and merchantable, and according to the current prises of provision pay, in the neighboring Townes in this County of Hampshire.

Attest—

HIGHWAY IN OLD STREET ALTERED, AND HIGHWAY LAID WESTWARD.

March y^e 16th 1702-3: The Selectmen viz: Ensign Joseph Shelden, Serjt Jn^o Hanchett, Corp^l Nathaniel Harmon, met together and layd out the addition taken out of Samuel Younglove's lot unto the highway leading to the Bridge commonly called Norton's Bridge or Highway called Old Street highway; according to the Town Act March y^e first 1702-3 for the accommodating Old Street way and making it more feazable, entred in page the 114th of this Booke in manner as followeth: We began at the South west corner of Samuel Younglove's lot where we tooke off from said lot 12 Rods broad and soe ran from thence, northerly 28 Rods by decrease or tapering untill we came to a point or

nothing at Old Street, marking three or four young trees in the range between said Younglove and the way, and soe we past on towards the Norwest Corner of said lot where we began again with a point, and so run along by increase 25 Rod in length, gaining in upon said lot untill it came to be six rods wide at y^e end or Norwest Corner thereof, where we marked a White Oak Tree between said Younglove's Lot and the highway: Wee also at the same time layed out a way from Old Street of 8 Rods Wide running from Old Street westward, along by the South side of Robert Old's Lot, and to the end of it, and then we turned a little Norward, and layed the way 30 or 40 Rods wide there, and soe ran along by the Harmon's land unto the end of Jn^o Harmon's Lot, running tapering as we went, untill it came to 8 Rod wide again.*

At a legall meeting of the Inhabitants of Suffield, April,—1703: It was agreed, and voted; to give liberty for two hundred †sheep to be brought into the Town, and to goe upon our commons in the summer: provided: the owners of them agree together, with such persons as have sheep, to procure a shepherd to take care of, and keep y^m.

2^d. It was agreed, and voted; to let out the †School Lot for this year to James King y^e 1st; he allowing the Town five shillings rent as a compensation for the same, and at y^e end of the tearm, to resign it up to the Town again.

3^dly. Ensign Joseph Sheldon was chosen commissioner for this purpose.

4thly. The Town did agree, and by a full, and clear vote declare, that the Town would be at all the cost, and charge to vindicate, and defend the bounds of our Township as it was Granted by our ||Honourable Generall Court, or lay'd out by the committee, or any person, or persons doing business within our commons within those bounds.

5thly. It was agreed, and voted; to lay out a highway over the mountain, to the commons where it be most convenient, not intruding upon former Grants; of six rods wide to the mountains; and ten rods wide over the mountain. §

6thly. It was agreed, and voted; to impose a fine of five shillings per hundred, upon any person, that shall presume hereafter, to cut, and carry away; or usher any person to cut, and carry away hoop-polls, from off any of our commons.

*See p. 71.

† Sheep were kept here in 1696, perhaps earlier. According to the Province Laws, they were not allowed to go upon the Highway, or Common without a shepherd. Each owner had a recorded "ear mark" for his sheep. Examples: "Joseph Trumble, entred his Ear Mark March y^e 14th, 1683, w^{ch} is a piece cut out of y^e top of y^e off ear, in fashion of a Swallow Tail."

"Jonathan Sheldon, entred his Ear Mark, Feb y^e 12th, 1730, which is a slit across y^e fore side of the off ear."

They were watched by day, and enclosed at night, to protect them from beasts of prey. Wild Cats and Bears were common; but Wolves were most numerous, and destructive. Large bounties for their heads were offered by the Colony, so that in 1750 they were not aggressive, but were not extinct 25 years later.

§ Laid out in 1710.

At a legall Convention of the freeholders, and other Inhabitants, qualify'd according to law; May the 6th, 1703: It was agreed, and by a clear vote determined; to send a Representative to attend, and serve at the Generall Assembly, for this present Court. *And according to our usuall manner of voting, by lifting up of hands; Ensign † Joseph Shelden was then chosen their Representative to attend, and serve at s^d Court.

At the same meeting, for the incouragement of a School-master; it was agreed, and voted: to give as a salary for this year, twenty-four pounds in provision pay, five pounds of which twenty-four pounds; It should be levyed, or raised upon the schollars on this side Feather street, to Serj Jacob Adams, his house; from five years old, to ten years old; on this provisall, that; if any other shall send, or all others that doe send their children to the Schooll, either of y^e age, or older; that they shall pay, in equall proportion, for w^t time they doe send with the scholars in High street. And to make up the complement of twenty-four pounds; It shall be raised by way of rate, in equall proportion upon all the Inhabitants.

† At a legall meeting of the Inhabitans of Suffield, Sept. y^e 7th, 1703: It was agreed, and by a considerable majority voted, to fortify our Reverend Pastors House Lot. The measuring of the ground, and proportioning of it to each man his share (by rate) and estate; was left with the Selectmen to doe.

2^{dly}. It was agreed, and voted: to put out Burles, the cripple, upon tryall to Goodman Smith, of Hadley: who is impowered to make experiment, whether he be capable of learning his trade, or no, if he be capable & if he the said Smith do learn him the trade then the Town is to pay to s^d Smith five pounds in money, or as money. If not, then he is to return him to the Town again, and have nothing.

At a legall meeting of the Inhabitants, Sept. y^e 16th: 1703: It was agreed, and voted: to choose 5 men for a Committee, to joyn with the Committee chosen by the Generall Assembly, for to settle the lines, between Windsor, Simsbury, and this Town, who are to be assistant to y^m for information, and showing of bounds; but not to act any further in the matter. And the persons yⁿ chosen for y^e service, specially: are, Anthony Austin Senr, Joseph Harmon, Joseph Shelden, J^{no} Hanchet, J^{no} Kent.

* Voting by ballot, for Select Men, had not been abandoned. (See p. 98.) In 1712 the Town voted that Assessors be chosen "by papers." In 1714, the moderator was chosen in like manner.

† See p. 83.

‡ Whether this vote was carried into effect is unknown. No other mention of the subject is made in the Town Records. It is probable that a Palisado was built here. Other towns in the valley had them. Palisades were rows of stakes, or posts sharpened, and set firmly in the ground, a few inches apart. Several acres were sometimes enclosed, where the inhabitants could gather for defence. The French and Indian war (called Queen Anne's war), was at this time raging, and continued for 10 years. The Deerfield massacre occurred the next year, when 47 inhabitants were slain, and 112 taken prisoners.

SCHOOL HOUSE.

At a legall meeting of the Inhabitants of Suffield; December the 23: 1703: It was then agreed, and voted: to build a school house, according to the Dimensions already agreed upon, by a former Town vote, entred a leaf back, in the 113th. page; and to have it finished compleat, and fitt to keep school in at, on, or before, *Michaelmas next ensuing. And allsoe to build a shelter for horses, for such as shall ride to meeting, & to set up a horse (block).

And by a clear vote, the men chosen as a Committee for the carrying on, and finishing said work; are Nathanael Harmon, J^{no}. Kent, and Joseph Winchill.

SUFFIELD AND WESTFIELD'S DIVIDING LINE.

Whereas: there hath been some difference, which hath occasioned many uncomfortable debates, between the Town of Westfield, and the Town of Suffield respecting the dividen, or dividing line betwixt them: We, therefore: Isaac Phelps, Jedadiah Dewy, John Noble, Joseph Sheldon, John Hanchet, and J^{no} Kent, being persons elected, or chosen by said Towns, and by them fully authorized, and impowered, as a Committee to settle this line, that it may no longer remain as a bone of contention betwixt them. Having by joynt concurrence, convened together, on the 22nd day of June, 1703: at the place of controversy, we after some debate had in the matter; at the length came to a friendly, and loving compliyance, each with other, and unanimously agreed to state, and settle said line, in manner as followeth, viz: We agreed, and determined that, from the Southwest corner of Springfield bounds, or where Springfield, and Suffield dividing line † meets with Westfield line; that the line shall run along southerly, upon the top of the mountain, to a white oak tree ‡ mark'd with stones about it, on the top of the mountain, and from said white oak tree, to run westerly, to a heap of stones, erected by Springfield committee. And the mountain to be the bounds, betwixt Westfield, and Suffield; & from the afore-said heap of stones, we agreed to run a west line, over the meadow or marrish, commonly called the great medow; to a small pine tree, which we marked with W—on the north side, & S—on the south side: From thence; we ran along over y^e plain, to the top of the hill, easterly of Mr. Taylors medow; where we again mark'd a great pine tree with: W. S: From thence, we ran along still on a westerly course, marking several trees in y^e range, or line as we went; untill we came to a period, or end of said line, between Westfield, & Suffield Plantations; which was on y^e east side of y^e hill, on y^e west side of the pine plain; where we marked a young white oak tree, and raised a heap of stones about it. ¶ This line thus stated, and run; we do joyntly, and unanimously agree, and determine, to be the dividing line between these two plantations forever; without any violation, alteration, or change. And that what we have now acted, and done, according to y^e power given us, shall put a final issue to former; and stand as a barr in y^e way of all future controversies, or

* See Note, p. 137.

† Flax was raised as an article of necessity, as well as commerce. Down to 1800, the universal wearing apparel, and house keeping goods, were homespun, from the wool, and flax of the farm. Many families were clothed in "homespun" thirty years later. Some old ladies, yet living, can show their marriage outfit of linen sheets, pillow cases, towels, and tickings, spun from the flax with their own hands.

Considerable flax was grown here in 1820, but little after 1830. Yarn was sometimes spun from cotton brought from the West Indies, and a little cotton was sometimes mixed with the flax and wool in making cloth. Printed calicoes, and other cottons from India, were seldom worn except by the rich. Cotton however was but little known here, until after 1792: when cotton yarn made by the "jenny" began to be peddled in every village and hamlet of New England. The American cyclopedia says: "up to the year 1813 the mills that had been put in operation, were designed only for spinning, and the twist was sold to the weavers, who made use of hand looms, to convert it into cloth." There were three cotton yarn mills in Suffield before 1820. (Niles Register.)

The introduction of the power loom about this date silenced the hand loom; cotton became king, and the hum of the spinning wheel, the click of the reel,

THE GENTLEMEN OF YE IRON WORKS, THEIR GRANT.

At a legall convention of the Inhabitants—1700: the gentlemen who are the owners, or undertakers of the iron works, viz: Collonel John Pynchon Esq^r, Joseph Parsons ¶ Esq^r, John Eliot § Esq^r. Having made their application to the Town for liberty to bring, and set up their Iron works in this Town;

* Suffield's claim to the land within these lines was not sustained by the commissioners of 1713, although portions of it had been laid out to its planters. Suffield lost about 3,000 acres of its Southwest corner; but the Proprietors received as compensation what is now the township of Blandford, Mass. See Town lines, p. 12, also pp. 93, 96, 100, 101.

† Now "Cranberry pond" in Granby. Phelp's Hist. of Simsbury, p. 147, writes this Indian name "Mallakakess." He erroneously presumes it to be Southwick Pond.

‡ The boundary question.

¶ Joseph Parsons of Northampton, son of Joseph of Springfield, was a Rep. from Sp^fd and Northampton 14 years, and a Judge of the county court. Savage, Gen., Vol. III. p. 363.

§ He was Gr. Son of Eliot, the Indian apostle. He lived at Windsor, and was a man of distinction in Connecticut. See Conn. Col. Rec., Vols. IV, V.

The Town after some consideration of the proposall made to them; By a clear vote, Granted unto these three gentlemen, who are exprest by name; free liberty to bring, and set up their *Iron works, in any place, or upon any of the streams within this Township; where they themselves should judge it most convenient for their use. And further, for y^e encouragement of the gentlemem in this their so great an undertaking; as also to promote so good a design: By a clear, and full vote; the Town Granted unto them, one hundred acres of land, to them, and their heirs forever; of which hundred acres, ninety acres is to ly at the foot of the mountains, next our south line, or bounding upon it: the other ten acres, near the Brook, or place where the works are erected, or set up; * if there be any there free from former grants, or other intanglement; and if not there to be had; then to take it up with the rest of their land, at the foot of the mountains; or in some other place which may be convenient for them; onely: in this gratuity or boone; All divisions of land, and proportions of meadow properly belonging to Grants, is hereby excepted.

At a legall convention of the Inhabitants January y^e 8th, 1705-6: Serg^t Jacob Adams, by a full, and clear vote was chosen Moderator, to make speech, and to Read all votes of a prudential nature in Town meetings, from y^e day of date hereof, untill a full year shall be completely expired.

At y^e same Meeting: by a full, clear, and unanimous vote; the Town made choice of Mr. John Eliot, and Mr † Ebenezer Pumrey, to advise, or give counsell to the Town in a matter of difficulty, which they are now labouring under, which case y^e Town shall at y^e time, and place hereafter appointed lay before y^m. The Town also yⁿ agreed, And voted: to send a mau up to Mr. Pumrey, to acquaint him with this act of the Town; and to get him down, and that they would pay all charges that should arise, about said councill.

* These "Works" were "set up" before 1704, as at that date a "part of the Iron works" were included in the inventory of Major Pynchon's Suffield estate.

They were located near the site of the present Boston neck School House. Little is known of them except, that in its latter years, shovels were successfully manufactured there, when the dam, and all the works were swept away by the Jefferson flood of 1801.

The abundant water power for the trip-hammer, and the slitting mill; wood for the furnace, and bog ore from the swamps of this, and the adjacent towns, and possibly the success of the first, led to the establishment of two other "Iron Works" here; one in 1721, on Stony Brook at the lower end of High St., under a Proprietor's Grant to Peter Roe, Joshua Leavit, Anthony Austin, John Trumble 1st, Samuel Remington, James King Jr, and Samuel Hatheway. (Vol 1, p. 5, Prop. Book.) They were in operation in 1770. (David Tods deed.) The other in 1722, at Stony Brook Falls, near the Simsbury line, by Ebenezer Fitch and Co. "to slit, and draw out iron rods for nails, and for other artificers in iron, their work and use." See Conn. Col. Records, Vol. VI, p. 312.

Little remains to inform the living that these "Works" ever existed, except the scoria often found in the vicinity of their several sites. In 1725, Iron was made lawful pay at 40^s per hundred, or its market value, for all town debts, except minister's salary.

The reason of this alteration was, because of Northampton Court being the same Week, many persons were unavoidably constrain'd to be absent from said meeting; which was judg'd to be very inconvenient, there being on said day, matters of a Generall concernment, to be acted and done, wherein all persons allow'd by law, ought to have the advantage of giving their sentiments, or voices in: if they soe please.

At a Legall Town meeting, July y^e 4th, 1707: It was agreed, and voted: to add to y^e Reverend Mr. Benjamin Ruggles, his Sallary: for this present year, to be pay'd in manner, or in y^e like species that his stated Sallary is, (fourteen pounds).

‡ See note, p. 130.

§ The remedy here proposed was inadequate for settling a Town and Colony Line. The vote shows an earnest and friendly desire for a fair adjustment of a matter that had harrassed the Town from its birth, and which is traceable to the incorrect line of Woodward & Saffery of 1642.

§ HIGHWAY OVER Y^e MOUNTAINS.

February the 21st 1710.^o. We whose names are hereunto annexed did lay out the severall highways following: First we laid out a highway of six rods wide according to the vote of the Town recorded in the 115th page of this Book) (see p. 145) from Sandy or Chestnut Hill to the foot or east side of the Mountaines; We began at John Younglove's Norwest Corner and about a dozen Rod westward of it wee marked a pine tree standing on the West side of said Sandy Hill, and on the south side of said highway: and so run with a straight course over ‖ "Ireland Plain": and along on the North side of "Stockwells Feild" bounding South upon it: from thence it runs across the Northerly end of Trumbles land to a red or black oak tree marked on all four sides, which tree stands on the North side of said highway: From thence to a white oak tree on the East side of Rattle Snake Brook and north of the highway: and so running over the brook and swamp to a chestnut tree; From thence to a maple tree standing on the East side of the next slow: from thence across the Norward end of a little

† He married Mrs. Hannah Breck, of Dorchester, Mass. Their publishment bears date August 9th, 1710.

‡ The Province Laws of 1698 required every town to provide a suitable pound. This was the first pound, and stood probably on High St. Common.

plain lying Norward of Serg^t Joseph Winchells swamp: From thence it runs over a brook that runs into said Winchell's swamp; and bounds south upon the most Norward Hemlock trees that stand upon the bank of said brook: from thence we layd it in the most feasible way, much as the path now goes, till we came to the foot of the Mountain where we marked two small white oak trees standing on the North side of the highway a little norward of the most norward branch of Stony Brook, that comes out of the Mountaines. (Old Book, p. 167.)

HIGHWAY OVER RATTLE SNAKE PLAIN.

Then wee laid out a highway of ten rods wide, from the highway that goes to the mountains; turning out of it on the high ground a little eastward, or south easterly of rattle snake Brook; where we marked a red, or black oak tree on all four sides, which tree is on the west side of this highway. From thence it runs norward, to a black, or red oak tree standing on the south end of Rattle Snake Plain; on the brow of the hill next the brook, on the North Side of it, & on the west side of the Highway: from thence, to a pine tree marked: and on the east side of said pine tree, and then running norward along the plain; holding the same breadth till it comes to the old road, or path before it comes to turn westward round the head of the boggy meadow commonly called *Cakebread's Meadow. (Old Book, p. 167.)

A PRIVATE WAY FOR JAMES YOUNGLOVE.

Also we layd out a way of two Rods wide for James Younglove to his land on the West side of Rattle Snake Plaine to turn out of the highway on Rattle Snake Plaine where about the, or against where it used to go over Rattle Snake brook, and from thence to go Westward across the plaine, unto the causey which said Younglove made over the swamp on the West side of Rattle Snake Plain. (Old Book, p. 167.)

HIGHWAY FOR JOSEPH WINCHILL, ON IRELAND PLAIN.

At the same time we layed a way of 3 Rods wide from the Norwest corner of Serj Joseph Winchills land, on or against the Westward part of Ireland plain, for his convenience and those that are near adjoyning to his land, which way lyeth along by the Northerly end of said Winchills land, and run the same course till it comes into the road or highway that leads over Ireland Plain, to the Mountain.

From thence we run westward about 20 Rods to stake and stones on both sides of the way: From thence it runs upon a strate line to the Country Road, or Road leading to Windsor, where it is bounded on both sides of the way with stake & stones; the stake on the south side of the way, standeth about two feet from the northwest corner of Jarret Huxley's House. * Here was a ford, before 1660, on the "Way" between Springfield and Windsor. No bridge was ever built here. Here was the first fulling mill and "clothier's works," (perhaps the first in Connecticut), in 1710, and in operation for more than a century. Also a cotton yarn mill, one of the first in New England. It is yet an open highway, and the town's oldest landmark. Few of the "Town Folks" ever enter its portals. In summer the grass is green in its ancient roadbed, and what was a main thoroughfare two centuries ago, is now a solitary way, whose silence is seldom broken, except by the scream of the passing engine whistle. PROPRIETORS TO VOTE ABOUT LAND.

At a meeting of the Inhabitants, being the Generall Town Meeting by adjournment, on y^e 31st day of March, 1712: It was agreed, and voted: That none should have a libertie of voting in any act respecting Land, but such as are Proprietors of first Grants, or purchasing Grants; and but one person to every Grant shall have libertie, or y^e privilege of voting in such acts.

* Martin Kellogg, son of Joseph, of Farmington, Conn., lived at Hartford, and afterward at Deerfield, where, in 1704, he, with his children, viz.: Martin, Joseph, Joanna, and Rebecca, aged respectively, 18, 12, 11, and 6 years, were captured by the French and Indians, and carried to Canada. After his release he bought the Homestead of Samuel Younglove in 1711, and settled in Suffield. This Homestead was on the north side of the road to West Suffield, west of the Winchell Bridge, on land now owned by Charles S. Bissell. The dwelling-house upon the hill, a little west of the bridge, disappeared about fifty years ago. He married a third wife in 1732, being then about 75 years old. He was a weaver by trade, and an honored inhabitant. No record of his death is found.

Martin, Jun^r, after several years' imprisonment, was redeemed, and in 1708 was again taken prisoner while with a scouting party, and again redeemed. He was remarkable for his courage and bodily strength. He was interpreter at the Indian Mission School, at Stockbridge, Mass., two years. He resided at Newington, Conn., and there died, Nov. 15th, 1755.

Joseph was a prisoner ten years, and became familiar with the languages and customs of all the Indian tribes, and was afterward the best interpreter New England had, being employed upon every important occasion. In 1714, he was persuaded to abandon a wild forest life among the Indians, and returned to his father's home in Suffield. In 1719, he bought the Winchell house-lot (South Corner High St., W. Suffield road), with a dwelling-house, for £100. He married Rachael Devotion (a sister of the minister), March 10th, 1720. Their sons, Jonathan and Martin, had families here, but after them the surname disappears from our records. He was made Captain in 1722, and his life was spent wholly in the public service. He was in command of scouting parties, guarding frontiers, was at Fort Dummer, on the Connecticut river, for many years, where two of his children were born, was at the Albany Treaty in 1754, and Commissioner to Canada, and other places. In 1756, though in feeble health, he accompanied General Shirley in the campaign of that year, as interpreter, as far as Schenectady, where he died and was buried A.D. 1756.

Joanna married an Indian chief, and bore him children, and could never be induced to return to civilization.

Rebecca, after a long captivity, returned, and married Benjamin Ashley of Westfield. She was employed as interpreter in Indian Mission Schools, and while thus engaged in the wilderness of Southern New York, died A.D. 1757.

For further history of this remarkable family, see Hist. of Northfield, and N. Y. Doc. Hist., Vol. 3.

And y^e Select-men to allow reasonable satisfaction in Land, to such persons, for y^e damage done them by such Highways.

* HIGHWAY FROM HIGH STREET, TO Y^e OLD MILL.

June the 12th 1712. Layed out a Highway, or passage from High Street to y^e Old Mill, (or place where y^e Old Mill was formerly): And beginning at High Street, where we set Stake, and Stone on each side of said way; and from thence, to the Gutter by Scotts House, to stake, and stone on each side of y^e way; from thence, to y^e next Bridge, and from thence, to stake and Stone on each side of said way, about y^e middle of y^e long hill, commonly so called; and so along upon y^e ridge, to a young white Oake, marked, on y^e North side of y^e Highway, standing on y^e South West side of a deep hollow, on y^e top of y^e hill; and on y^e South side of y^e way, a black oak bush; and from thence, to a black oak, on y^e North side, and a stake and Stone, on y^e South side: From thence to a stake and stone on the South side, and a little Eastward of y^e Gutter, at y^e East end of y^e Long Hill; and a white oak on y^e North Side. And from thence to y^e Gutter, on y^e West Side of Hoop Hill, on y^e west side of which Gutter, we set stake and Stone, on both sides of y^e Way. And on y^e East side of Hoop Hill, on y^e brow of it, is a White oak, on y^e south Side; and a yellow oak butt on y^e North Side, both marked: From thence to a young white oak, on y^e North Side, and a stake and stone on y^e South Side. From thence, to a black oak saddle, on y^e north side, and a yellow oak on y^e south side, west of Bush Hill; and so up to the brow of said hill, where we marked a White Oak on y^e West side, at y^e turn of y^e way: and a black oak on y^e East side. Then turning southward, along upon said Hill, toward y^e westward side of it, across all the lotts, till it falls in between the allotment laid out to †Capt Samuel Cross, and y^e Second division Laid out to Timothy Palmer: so between them, till it comes near to Stony Brook: Then turning Eastward, across a corner of †said Palmer's Second Division, along where the old path goes down to where y^e Old Mill House stood: From thence to y^e old Road, or Highway, that runs through Feather Street, where at the Corner, or turn of y^e way, we marked a white oak on all four sides; and a black oak on y^e North Side, of this way. Said Highway, or passage we lay'd out, Three rods wide, and from this way, we layed out a way of one rod and half wide, down to the mouth of Stoney Brook, near where y^e old path now goes. (Old Book, p. 185.)

HIGHWAY BELOW STONY BROOK.

Att the same tyme, was layed out a Highway, or passage for y^e Inhabitants, below Stony Brook, of one rod, and half wide. We turned out of the Highway that leads along on y^e East end, or front of y^e West range of Lotts, on the

*See pp. 63, 71. Tradition has located the first Saw-Mill and Dam upon the site of the present Franklin Paper-Mill. This tradition, accepted as truth, (see p. 29,) I am obliged to reject. This highway-record proves that the old mill was where the Iron Works were afterward located. (See note page 152.) The Corn-Mill, attached to the Saw-Mill in 1677, appears to have been of little value, as ten years later the inhabitants complain, and Maj. Pyncheon promises to build a Corn-Mill with house, &c. (See page 109.) This he did, and it formed in 1704, a part of the inventory of his Suffield estate. Its site was probably that of the present Boston-Neck Grist-Mill. His heirs sold the mill with its privileges in 1713, to James Lawton of Suffield. (Hampshire Co. Rec. Vol. D. p. 324.)

† Samuel Cross of Windsor had a Grant in 1671, but did not settle here. In 1703, forty acres of upland and swamp were laid out to him, and his heirs. He died in 1707.

South side of Stony Brook, going aslant across y^e front of James Haywards Lott, marking severall trees on the south side of the way, till it comes to y^e top of y^e Hill, against y^e Iron Works; and slanting down y^e Hill, to y^e turn of y^e River (or Stoney Brook) where it turns off of y^e Hill, across a little hollow, onto y^e fair Intervall Land in said Hawards Lott; and over a little Brook, where y^e path used to pass over it, and so along between the Hill, and Stoney Brook, where it is best for the way, till it comes to James Haywards House.* And then turning up y^e Hill, on y^e backside of said Haywards House, through said Haywards Land, and y^e rest of y^e allotments, till it comes to, and passes over Stoney Brook, a little below y^e Cornmill.† From thence through y^e lots, to y^e Highway, or passage to y^e Old Mill, entering into it, a little West of y^e Wett Land, on y^e west end of y^e Long Hill. Said way is laid out for y^e most part of y^e way, where y^e path now goes. There are trees marked on both sides of this way, facing y^e way, and said way to be a rod, and half wide, from said trees so marked.

Sam^l Partridge, John Pyncheon, Joseph Parsons, Sam^l Porter, John Stoddard Esq^{rs}.

* Whereas: the great and general Court, or Assembly held at Boston upon Wednesday the 20th of July last past: Upon reading the Memorial of John Austin late Town Clerk of Suffield, in behalf of the Select men of the said towne for the year 1714; setting forth that on the 25th day of March, and on the 2^d day of April 1713: The Inhabitants of said towne of Suffield made Sundry Conditional Grants of land: and whereas the Select men of said towne for that year, without having regard to the Conditions of the said grants, gave orders for the laying out of lands to sundry persons; and also directed the recording the returne of the land Measurer. By reason whereof, several persons had more land laid out to them, than was granted to them by y^e said towne. Which proceedings of the Select Men, being disagreeable to the towne—On the 22^d of March 17th 1713: They voted that there should be no record made of any of the lands granted at the aforesaid meetings, as will more at large appear by the said townes vote: And whereas the towne by their said vote, ordered that the proprietors, at a proprietors meeting, should consult, and conclude some proper methods, to prevent such irregular proceedings: Ordered: that in case the Inhabitants of said towne did not compromise, and Issue their Differences in the Space of three months: That then the Justices of the general Sessions of the peace, in the County aforesaid; should hold a Special Sessions at the said towne, and hear both parties, and determine, and settle their Differences: whose Determination should be a final Issue, and soe entred in their town book, as by the said memorial and order of Court more at large appears.

In observance of which order the Justices above mentioned, met at Suffield afores^d on the said tenth day of January, and upon hearing both parties (they not having compromised the said Difference) Doe determine as follows, viz^t: that the afores^d votes of March 25th, and April 2^d 1713, should be utterly void and of None Effect—and that the afores^d vote of March 22nd, 17th 1713, so farr as respects the prohibiting of putting any lands on record, granted at the afores^d meetings of March 25th, and April 2^d 1713, shall stand, remaine, and abide, in full force and vertue.—And that all grants of land made by s^d towne, since the

* By this act, all grants of land by the town, after March 9th, 1713, were void, and the control of the undivided land was given to the proprietors, or their representatives. Some of the voters in town-meeting were new inhabitants, and had no right in the common lands. At this date, there had been distributed by the committee for settling the town, about 6,258 acres, and by the proprietors in the second division in 1688, to themselves, about 2,915 acres: in all, about 9,173 acres. The after divisions, were the equalizing grant of 1,558 acres, in 1720, and another final division of land east of the mountain in 1725, about 2,150 acres: the division of the mountain in 1742, of 583 acres, and the final division of 730 acres west of the mountain in 1759, in all, about 14,000 acres. By the Colony survey in 1713-14, the area of the town was 22,172 acres, which left for highways, streams, lands given to secure settlers, for large measure, for lands lost by imperfect surveys and bounds, about 8,000 acres. The acts of the proprietors relating to the division of the remaining common lands, are preserved in two volumes, from which extracts will be found in the notes of Period Third.

* Suffield's share was £405. The bills were of various denominations from 2s to £5. Four per cent. of the interest money went to the Province treasury, and two per cent. to the town. A fund for the redemption of the loan within ten years, was created by taxing the towns. By too great emissions of this paper currency, from 1690 to 1737, it lost its credit and became so much depreciated that 45 shillings of it (instead of six) were required to make a dollar. This was "old tenor" currency. Issues of paper money from 1737 to 1749, were better secured, and 11s. 3d of it were reckoned a dollar, a shrinkage of only about one half. This was styled "new tenor" currency. These values were fixed by the Massachusetts General Court in 1749. The terms "old" and "new tenor" often appear in our records.

* Salmon were not super-abundant at this date, the price per pound being about twenty times more than that of shad.

with his Excellency's speech upon the Conference, as also y^e Two Letters therein Referred to; and being thereby made more Deeply sensible how greatly our most valluable privileges are Exposed by our hitherto neglect, and the Displeasure of our most Gracious Sovereign procured, and all the marks and tokens of his favour, kindness, and Respect for y^e future forfeited; and considering also that Debt of Gratitude which is Due from us to our Sovereign in appointing one to Represent His Majesties Royal person at y^e Head of this Government Virtually of our own choosing and so much to y^e Good liking all; when we had given such cause for other measures which amounts to such a Degree of unexpected Indulgence and mark of Respect as is almost unparalled and not to be forgotten, hoping also; that if y^e several Towns of this Province would take sumthing of a like method with us, although it might not prevail with those that Represent us to comply with His Majesties pleasure, yet might be of so much service as to Incline His Excellency our Governour not to make so speedy a Return to Great Britain to give y^e Required Information as otherwise he might have Determined to Do. Such things as these, together with many others considered, therefore, voted: Declared, & by a very great Majority concluded, that it is highly Expedient, and of y^e most urgent Necessity and are fully of y^e minde that his Majesties 27th Instruction be forthwith comply'd withal, and that fully, both as to the quantum and in the manner prescribed, that so His Majesties Lenity towards us may have the Desired Effect, and also His favour for y^e future continued.

APPENDIX

TO THE

DOCUMENTARY HISTORY

OF

SUFFIELD.

APPENDIX.

To supply a more complete description of the town's early books of record than is contained in the Preface, the following is added.

The first Suffield Town Book of Records is a folio volume of 267 pages. It contained the "Acts of the Committee" for settling the town from 1671 to 1682, all in the handwriting of Major John Pynchon, and a record of lands granted and distributed to proprietors and settlers before 1716. It also contained all the records of town meetings, called "Town Acts," from 1682 to 1724. What remains of the book is priceless, for it contains the original record of the history of Suffield's town government in its first half century. The peumanship of Major John Pynchon, and Anthony Austin, the first town clerk, is admirable.

In 1739, Joseph Winchell, the third town clerk, compiled an index to this volume, which is preserved. Its completion was celebrated in verse by the compiler, as follows:

"This Alphabet was made: with such intent,
Mispence of time: and money to prevent,
Which double end: I hope it will obtain,
So that no loss: but all may turn to gain:
For thus twill be: when any come in haste,
To search the records: who hav'nt time to waste,
They'l quickly find: the thing which they do need —
Then bid farewell: and haste away with speed.
Which practice, I do hope that none will blame,
Til Joseph Winchel change his mind and name,
Which wont be quick: the reason is because —
His name and mind, are like the Persian laws."

In 1771 the town ordered a transcription of that part of the original book relating to the "Tenure of Lands," which included the "Acts of the Committee." The work was completed in 1774, before the "Old Book" was seriously mutilated. It is a folio of 425 written pages. The transcribed matter occupies 296 pages; the remainder of the volume contains records of bonds, leases, boundary lines, fence divisions, and highways, commingled, bearing date from 1775 to 1882.

The Transcription Committee, at the close of their labors, left on record a memorial with their autographical signatures, and commemorated the event in verse.

SUFFIELD March: 26th, 1774.

We the subscribers, pursuant to a vote of the Inhabitants of Suffield made and past in a lawfull Town Meeting, held at Suffield Dec^r, 1771, authorizing and appointing us a Comm^{tee} to Transcribe the first Book of Records of this Town, in order to transmit to Posterity those Transactions entire: to wit: those that related, or do relate to the Tenure of Lands, (the first Book now

through Time going to Decay,) have with great care and pains now Completed the same, for the Benefit of the Rising generations; that is to say; all that Touches the Title of Land. All which is contained in the foregoing Sheets, in Which it will appear by a variety of notes that We have made, that we have purposely passed over the Choice of Town Officers, such as Select Men, Constables, &c; Where Land was not concerned; the end & Design as above mention^d regarding nothing but Land. All which is faithfully Transcribed, and now by us Reposited, and laid up for the Benefit and Advantage of Ages not now born; and as a Testimonial to the Truth of this Transcription, We hereto set our Hands, the day and year abovesaid.

PROPRIETORS' BOOKS.

Two other volumes contain the Acts of the Proprietors and the record of the division of all the common lands that remained undivided in 1716.

The first volume is chiefly devoted to the “Equalizing Grant” made in 1720 to those who had not received their just share in former divisions, etc., the division of the mountains in 1742, and preliminary measures for a division of the common lands west of the mountain in 1756. Joseph Winchell was proprietors' clerk from 1716 until his death by apoplexy in 1743. This volume is also graced with his verse.

“MEMORANDUM.

“BY JOSEPH WINCHELL.

“Great Debts requier the greater Care to pay,
 Wise Men provide against the Accounting day,
 Go, Run, Ride, Swim, use every Honnist Way,
 Rather than Poverties Commands Obey.

“Truths always Truth, in Age and Youth —
 Tis neither Old nor Young —
 This is as true, now said of Truth,
 As ever was spoke by Tongue.

"This I have Writ, as I thought fit—
 A Line or two in Haste—
 Well knowing it, that Tis not fit,
 I precious time should Waste."

The Index to this volume, made by Joseph Winchell, is dedicated as follows:

"He thats inclined, to look and find, —
 What he does want and need;—
 This Alphabet, I think most fit;
 To help in Haste, and speed."

The second Proprietors' Book contains acts relating to the division of the "Great Common" east of the Mountain in 1725, estimated to number about 2,100 acres. After this division was allotted, there was found remaining about 625 acres, which was divided in 1742, and is recorded as the *second division of the Great Common. The latter part of the book contains the record of lands west of the mountain, divided in 1759, as ordered in 1756. This was the last distribution of the common lands in Suffield. The laying out of lands on former divisions ended in 1784. An effete organization was maintained for half a century later, to look after any possible remaining proprietary rights.

In 1821, it was voted to deposit the "Proprietors' Books of Records" with the town clerk.

The last proprietors' meeting was held at Richard Clark's inn, at West Suffield, June 5, 1826. After choosing officers (whose successors have never been appointed), the meeting was dissolved, upon the passage of the following:

"Voted: we would take something to drink. Meeting Dissolved."

The town books for recording marriages, births, and deaths are the next in point of age and interest. The first is a small folio bearing a date of 1702. Its entries indicate that it was in use from the time of the town's organization in 1682 to 1740. It also contains records of intentions of marriage, estrays, and ear-marks for cattle, sheep, etc. It is sadly shattered by the wear of two centuries, and more than thirty pages are lost. Yet it is one of the most valued and interesting relics in the town's archives.

A second book, containing similar records from 1740 to 1762, is not found.

A third book of births, marriages, and deaths, from 1762 to 1799, is in good condition.

In December, 1799, the town ordered the town clerk (Alexander King) to "collect and transcribe all the records of marriages, births, and deaths into one Book." He had completed the transcription, with an index, in an admirable manner before his death, which occurred October 12, 1792. This book is now styled, "Suffield Records, Births, Marriages, and Deaths, Vol. 1."

FORMATION OF THE SECOND ECCLESIASTICAL SOCIETY.

The inhabitants of the west part of the town of Suffield petitioned the Massachusetts General Court in May, 1739, to be "set off" a distinct society. The majority in town meeting opposed the project, and appointed an agent

* There were two *Second* Divisions of lands,—the first in 1688, under the Town Government, the last under the Proprietary Government. The latter (625 acres) should be added to the 14,000 acres stated in note, p. 194.

to make answer at the General Court, why they should not be "set off." (Appendix B.)

The General Court "recommended an accommodation of the matter." Each party accordingly appointed a committee, who referred the whole "contro-versie" to another committee, mutually agreed upon. (Appendix C.)

Dec. 14, 1739, the referees reported favorably for the petitioners, and fixed the boundary lines between the societies. (Appendix D.)

The General Court ratified the report of the referees, and the westerly part of the town of Suffield was "set off a separate and distinct precinct," Jan. 1, 1740. (Appendix E.)

"B."

A summary, or brief in the hand-writing of Joseph King, Gentⁿ, giving reasons why the town should not be divided into Ecc^l societies, has been preserved, and is as follows :

"Memorandum. The Township (is) too scant for 2 Precincks, the improvable part not being y^e Contents of 5 mile square, and the land being broken, or a mixture of plowing, pasturing & mowing together, that to separate each part by itself requires so much fence that y^e product will scarce pay for y^e labour. The low circumstances of y^e Inhabitants Render us incapable to subsist 2 Ministers, and to build 2 houses, for although we are a considerable number of Inhabitants, yet the consumption of provisions must be in proportion to our numbers, and the produce of our Lands has never yet been sufficient for our subsistence since y^e Town has stood, saving about 2 years past in an extraordinary time of plenty. For we being so many have but every one a little, and of a little can spare but a little. For although we have y^e number of almost 200 families, yet there are of house-holders about 20 y^t their List dont exceed 5£ ; 10 between 5£ & 10£ ; and 20 between 10 & 15£ ; and 19 between 15 & 20£ ; So that there are about 70 y^t are not voters in Town affairs.

"There are 23 between 20 & 25£ ; & 18 between 25 & 30£. As to the Petitioners being let off under a notion of their increasing in numbers is a misapprehension, for their is but a Little more Land there Improveable, besides what belongs to L^t (Jonathan) Sheldon* and to partikular men in the Town, and especially if Springfield get their demand upon, which it is to be feared they will, the jurisdiction at least, which will Reduce the Township on y^e West part to but about 3 mile & $\frac{1}{2}$ at the most between Sinsbury Corner and Springfield Line, and a Considerable Land y^t is under improvement belongs to y^e East part which they improve for Winter Corn. The West part being set off, will lay y^e other Extream parts of y^e Town who were the first Planters, under a great difficulty by advancing their charges, who have always undergone greater difficulty in geting to Meeting than they ; by reason of the badness of the way. The great inconvenience of Breaking Towns into small Precincts makes parties in Towns, and being unable to give y^t honorable support

to Ministers which is meet, has a tendency to breed discord between Minister & People, and proves a wound to Religion : and no man of learning and parts will be willing to settle in such places : and so they must take up with weak means, which opens a door for seducers to infuse Corrupt principles, and bring a scandal upon Religion.

SPRINGFIELD & SUFFIELD BOUNDARIES.

To His Excell^{cy} William Shirly Esq^r Cap^t Gen^l and Com^{dr} in Chefe of His Majesties Province of the Massachusetts Bay: The Hon^{ble} His Majesties Council and House of Representatives In Gn^l Court Assembled at Boston May 26th 1742:

The Petition of the Town of Suffield in the County of Hampshire, Humbly sheweth: That the South Bounds of the Town of Springfield (Viz) on the West side of the Connecticut River, is the North Bounds of the Town of Suffield aforesaid: and that about seventy years since, the Line between y^e said Towns was by a Committee of y^e Gen^l Court joyned with a Committee of the Town of Springfield run and marked, and y^e s^d Line has been owned and acknowledged by the Inhabitants of both y^e s^d Towns for sixty years past to be the established boundary between the s^d Towns, and has been in a frequent manner Perambulated according to Law by Committees by the s^d Towns respectively appointed, and these perambulations reduced to writing and consented to by both parties and recorded, all without the least hesitation from the time the Law of the Province provided for the perambulating y^e Lines between Townships to the year 1735 when Springfield Committee made sum objections to that ancient boundary which their fathers had set, and in the year 1739 the Representative for the Town of Springfield moved to the Gen^l Court for a new Establishment greatly hurtfull to the Town of Suffield, and wee having that year no Representative in Court, and being under other disadvantages about our Cause, The Town of Springfield obtained the order of Court for a new Establishment according to their Petition, which Order is greatly to our damage, and as wee Humbly apprehend not according to the Gen^l Courts practice in causes in the like nature: from whence wee are verrily persuaded y^t our Cause was never sufficiently laid open to the Committee appointed by the Gen^l Court to hear it, wherefore wee most Humbly move with great submission to your Excel^{cy} and Hon^{rs} y^t you would now grant us another opportunity to lay our cause before you for your wise Determination, or grant us such other relief as in your great wisdom you shall think fit, and your Petitioners as in duty bound shall ever pray &c

“ Whereas the Great and General Court or Assembly of the Province of the Massachusetts Bay on December the 10th 1742, on a motion made by the agents of the Towns of Springfield and Suffield, in the County of Hampshire respecting the Controversie about the Dividing Line between the said Towns. Voted and ordered that wee the subscribers, together with Israel Williams Esqr, should be a Committee to repair to the line in controversie, hear the parties thereon, and report what wee think proper for the General Court to do thereon at their Sessions to be held in May Anno Dom 1743. And having on the 13th and 14th days of April current, repaired to the spot, and fully heard all the proofs and allegations of both the parties, and examined both the Lines with the marks and boundaries therein; wee find that in the year 1670 the General Court granted a Tract of Land of the contents of Six Miles square between Springfield and Windsor for a Township since called Suffield, and appointed a Committee to order the Prudentialls of said Town; who in Jan^y 1674 Run and Marked the Line between Springfield and Suffield from Connecticut River to Westfield Bounds, and that the said Line has been notoriously known not only by the Inhabitants of Springfield and Suffield, but also by those of Westfield, their Neighbourhs for neer sixty years past; and that there (have) been ancient Improvements limited and Bounded by s^d Line; and that the s^d Line is run upon, or nigh a Right Angle or exact square with the General Course of Connecticut River against Suffield, and by the Record the afores^d Committee made of those running and marking the Line in Jan^y 1674. Wee find that many

trees were marked by the s^d Committee with the letter S. P. for Springfield on the North side and S. for Suffield on the South side and by cutting into s^d Trees near six inches deep Wee uncovered these letters in their full and perfect shape, and that the number of the Graines or years growth in one of said Trees (which was the only sound one wee met with) was Sixty Eight years exactly, agreeing with the number of years since the Committee run and marked the Line. The other Trees altho the said letters plainly appeared yet being defective, the grains or years growths could not be exactly numbered. But in the Line that Springfield would have the dividing Line, wee did not find any appearance of antiquity, none of the letters aforesaid, nor any signs of marking, but on the bark of the trees that seem to be of but few years standing. Wee also find that the Bounds of the Town of Suffield are more ancient than Springfield, and that whether Suffield can challenge so far North as the afores^d Ancient Line or not: yet Springfield can challenge no further south; And the said Ancient Line wee find to be as nigh due West as can ordinarily be supposed to be run with out Compass, which was the common practice at that day.

* Upon the whole, the Committee are of the opinion, that the aforesaid Ancient Line, Run and Marked by the Committee in 1674, be, and be established as the Dividing Line between the Town of Springfield and Suffield afores^d.

All which is Humbly submitted.

* As elsewhere stated, this has remained the north boundary line of Suffield, from the Connecticut River, to the North Bound Stone at Rising's Notch, from that time to the present. When the State Line was established in 1803, this ancient town line was made the inter-State boundary, although it was not on the true Colonial charter Line, being four rods too far north at the Notch, and ninety rods too far south at the river.

SIMSBURY BOUNDARY WAR.

Simsbury (Massacoe Plantation in 1668), received its grant and name from the Connecticut General Court, May 12, 1670. It extended north from Farmington ten miles, with its north boundary line undefined.

Westfield's grant from Massachusetts in 1669, extended south from Northampton nine miles, its east boundary being the top of the mountain that borders the Connecticut valley. Its south boundary line was unsettled.

Suffield's (Southfield's) grant from the Massachusetts General Court in 1670, was "to the Contente of Six Miles Square," bounded east on the Connecticut River, extending south six miles from the Springfield line to the supposed Colony line.

It was found in 1671, that Suffield's north line at Springfield's southwest corner bound, four and a half miles from the river, intersected the Westfield line, and if continued would overlap the southeast part of that grant, about one and a half miles in width and two miles in length.

To supply this deficiency of land to Suffield, the Massachusetts Court, in 1674, ordered the south line to be extended west seven and a half miles. It was found later that this extension would overlap the northeast part of the Simsbury grant at five miles from the Connecticut River, about one and a half miles in width, involving the title to about 3,000 acres. Both towns stubbornly asserted their jurisdiction, by proclamation and by force,* until the colonial governments fixed the boundaries in 1713. Simsbury held the disputed tract with its supposed valuable copper mines, where now are the ruins of Newgate prison.

Suffield had allotted to its settlers many acres of these lands now in East Granby. They were surrendered, and equivalent lands given to the disappointed grantees.

Massachusetts gave Suffield Proprietors a township in the western wilderness, called Bedford, now Blandford, as an equivalent for their loss.

It must be remembered that this territory was then a dense wilderness, on the outer border of civilization. It is not strange that boundary troubles arose between these towns, during the forty years the Colony line remained unsettled.

I am indebted to Dr. Lucius I. Barber for a copy from the Simsbury records, of the following letters of Anthony Austin, the Suffield town clerk, and schoolmaster; to Jno Slater Sen., the town clerk, and schoolmaster of Simsbury. Though nearly two hundred years old, they have not lost their flavor.

"From Suffield:—These, for the Selectmen of Simsbury.—

Slater Sen^r, but wether he wrote as Select men, Town Clark, or by order of the Select men, we cannot understand by his writing, there being nothing signified of that nature, therein: but supposing it to be some oversight, we shall therefore apply ourselves to you as select men, and return an answer to

your desires, as followeth. We suppose that when you wrote to us, you did it rather for customs sack, or by way of compliment, than any reall expectation you had off our complying, or joyning with you in any such motion. Friends, we must tell you that your claims seems to us so unlikely, and also so unreasonable, that we shall be so far from sending men to joyn with yours in running such a lyn; as that on the contrary, if we send any at all, it will be to withstand and oppose you;—at least to manifest our dislike of any such motion. And we would farther, that you should understand that it is our resolve (untill it doth evidently appeare to us that your right is better than ours), to conerve and maintain our towne bounds to the utmost extent of what our honnoured General Court granted us: and we have purchased and payd for. Therefore, Friends, pray please to desist from your present motion. For if your foundation you build on be not surer layd than we imagine it is, your labour and travel will certainly in the end prove unsuccessfull and fruitlesse.

At the time appointed, for the Simsbury perambulators to enter upon their duties, the Selectmen of Suffield sent two men, to be present at the perambulation, bearing the following letter from the Town Clerk:

“These for our Loving friends and Neighbours off Simsbury Towne—

“Loving friends and Neighbours, According to your desires, we have sent two of our neighbours, Serj. Joseph Harmon and Serj. David Winchell to met with your men at the place appoynted, but not to joyn Issue with you in running any such lyne, but on the contrary, to protest against it,—it being so unlikely, and also so unreasonable that your bounds should come within a mile and halfe or two miles at farthest, of the center of our Towne: and besides, friends, we think that we have the Wethergag of you, or the best end of the Staffe in our hands. For as much as we challenge nothing but what lyes within our province lyue;—Your demann is whollily out of yours. But yet, notwithstanding, pray let not us contend, or give one another hard words, but treat one another Lovingly, like Christians, and Let our Authority on both sides Issue the matter:—and if it appear to be your right, we shall not desire one foot or inch of it: if not, we desire y^t [we] may enjoy our own peaceably.

The commissioners appointed by the Massachusetts and Connecticut Colonies to settle the colonial boundary line in 1713, gave the disputed territory to Simsbury. (See note, p. 151.)

CONCLUSION.

In 1876, the writer began the transcription and the study of the town's earliest records and history, with the thought perhaps of collating its most important events in the form of annals. It was to him an unknown field, whose exploration from that time to the present, has given unalloyed pleasure, and often afforded a relief from the common cares and anxieties of life.

When the manuscript containing what is found in Period I, was placed in the printer's hands, the writer deemed his work at an end. But the same fascinating desire to study the acts of the new-born town, and preserve them from a possible oblivion, led to the publication of Periods II and III, with a "Title and Introductory," prefixed to Period I. This must account for the desultory arrangement of the work. A single merit is claimed for it, as being a correct and literal transcript of the text, with only needful punctuation marks added. When the old records shall have become illegible, or crumbled to dust, these pages may tell the future historian or annalist for Suffield, the story of its planting and growth, while under Massachusetts Government for three-quarters of a century. My pleasant self-imposed task is finished.
